

CONTENTS

Preface	xv
Progress in Plant Protoplast Research	
I. Potrykus	1
Obstacles and Perspectives in Protoplast Research	
T. R. Eriksson	7
Aspects of Protoplast Culture and Plant Regeneration	
M. R. Davey and J. B. Power	15
Recent Developments in the Regeneration of	
Agronomically Important Crops from Protoplasts	
K. J. Webb	27
Selection, Experimental Manipulation and Culture of	
Single Protoplasts	
H.-U. Koop and G. Spangenberg	33
Uniparental, Fusant, and Chimeric Plants Regenerated	
from Protoplasts after Streak Plating in Agarose Gels	
H. Binding et al.	35
Electroporation Mediated Enhancement of Plant	
Protoplast Division and Plant Regeneration	
E. L. Rech et al.	39
Selection of Potato Cell Suspension Protoplast	
Subpopulation by Rhodamine 123	
S. Lucretti et al.	41
Protoplast Culture of <i>Dioscorea opposita</i> Thunb.	
(<i>D. Batatas</i> Decne)	
A. Sauer and F. Walther	43
Isolation and Culture of Buckwheat (<i>Fagopyrum esculentum</i>	
Moench.) Callus Protoplasts	
N. I. Rumyanzeva and V. V. Lozovaya	45
Partial Purification of a Cellulase Used for Protoplast	
Isolation from Barley (<i>Hordeum vulgare</i>)	
H. Krogaard	47
Plant Regeneration from Cell Suspension Protoplasts of	
<i>Festuca arundinacea</i> Schreb., <i>Lolium perenne</i> L. and	
<i>L. multiflorum</i> Lam.	
S. J. Dalton	49

VI

Isolation, Culture and Regeneration of <i>Lolium perenne</i> and <i>Lolium multiflorum</i> Protoplasts	
T. Creemers- Molenaar et al.	53
Mature Plant Regeneration from cultivated Protoplasts of Rice (<i>Oryza sativa</i> L.)	
G. Y. Wang and C. A. Hsia	55
The Plants Regenerated from Protoplasts of Suspension Cells of Rice (<i>Oryza sativa</i> L.)	
Li Xiang-hui et al.	57
Regeneration of Plantlets from Protoplasts of <i>Poa pratensis</i> L. (Kentucky Bluegrass)	
P. Van der Valk and M. A. C. M. Zaal	59
Somatic Embryogenesis and Plant Regeneration from Protoplast of Maize (<i>Zea mays</i> L.)	
Cai Qi-gui et al.	61
Protoplasts from <i>Actinidia deliciosa</i> (Kiwi): Obtention and Culture	
M. C. Pedroso et al.	63
Colony Formation from Cell Suspension Culture Protoplasts of Kiwifruit	
M. A. Revilla and J. B. Power	65
Isolation and Culture of Grapevine Protoplasts (<i>Vitis Vinifera</i> L.)	
G. Alleweldt and G. Reustle	67
Studies Towards a Protoplast Isolation and Culture Procedure in Sugarbeet (<i>Beta vulgaris</i> L.) Applicable to a Variety of Genotypes	
F. A. Krens and D. Jamar	69
Improvement of Protoplast Culture in <i>Helianthus annuus</i> (L.)	
M. Burrus et al.	71
Factors Influencing Protoplasts Plating Efficiency and Direct Somatic Embryogenesis Induction in Sunflower (<i>Helianthus annuus</i> L.)	
J. M. Dupuis and P. Chagvardieff	73
Comparison of Sunflower Protoplast Development in Liquid or Solidified Media	
V. Thor et al.	75
Plant Regeneration from Protoplasts of <i>Rudbeckia</i> and <i>Dimorphotheca</i> Species (Compositae)	
J. Al-Atabee and J. B. Power	77
Optimization of Lettuce Calli Regeneration from Protoplasts	
Y. Roguet	79
Optimal Density and Osmolality of Protoplasts for Improved Cultural Performance	
G. B. Poulsen	81
Development of Protoplast Culture Procedures in Brassica Crops Suitable for in vitro Selection Herbicide Resistance Mutants and Cybrids	
C. O'Neill et al.	83
Somatic Embryogenesis in Stationary Phase Suspension Cultures Derived from Hypocotyl Protoplasts of <i>Brassica napus</i> L.	
E. Kranz	85
Plant Regeneration from Cucumber Protoplasts	
C. M. Colijn-Hooymans et al.	91
Callus Formation from Mesophyll protoplasts of Forage Legume <i>Astragalus Huangheensis</i> Fu et Lin	
Y. C. Chien and Zou Ji-tao	95

Preliminary Studies of <i>Lupinus</i> Protoplasts J. J. Rybczynski et al.	97
Regeneration and Differentiation of Protoplasts in Grain Legumes R. Gill et al.	99
Plant Regeneration from Strawberry (<i>Fragaria ananassa</i>) Mesophyll Protoplasts M. Nyman and A. Wallin	101
Isolation and Culture of Apple Mesophyll Protoplasts A. Wallin	103
Phizogenesis as an Intermediate Step Towards Plant Regeneration of Protoplasts of Sour Cherry (<i>Prunus cerasus</i> L.) Rosaceae S. J. Ochatt and J. B. Power	105
Isolation and Culture of Protoplasts from Totipotent Cell Cultures of <i>Populus ciliata</i> G. S. Cheema	107
A Protoplast System for <i>Populus</i> which will Support Genetic Engineering Research of Tree Species J. A. Russell and B. H. McCown	109
Factors Influencing <i>Digitalis obscura</i> Mesophyll Protoplast Development R. Jover et al.	111
Cotyledon Protoplasts from <i>Solanum melongena</i> L. Regeneration to Fertile G. G. Li and L. Y. Zhang	113
Isolation, Culture and Regeneration of Leaf Protoplasts in the Genus <i>Capsicum</i> I. Diaz et al.	115
Isolation and Properties of Protoplasts of <i>Theobroma cacao</i> L. H. A. Collin et al.	117
Plantlet Regeneration from Protoplasts of <i>Levisticum</i> <i>officinale</i> Koch. and its Cytological Investigation Jing-Fen Jia et al.	119
Differences in Developmental Morphology of Protoplasts from Two Cell lines of which Spruce (<i>Picea glauca</i>) S. M. Attree et al.	121
Protoplast Development from <i>Porphyra linearis</i> - An Edible Marine Red Alga L. C.-M. Chen et al.	123
Structure and Physiology of the Protoplast Plasma Membrane L. C. Fowke	125
Why do Mesophyll Protoplasts Dedifferentiate? Y. Meyer et al.	133
Release of Phytotoxic Factors from Plant Cell Walls During Protoplast Isolation G. Hahne and H. Lörz	135
Role of Peroxidase in Protoplast Development: The Activity and Molecular Forms of Peroxidase in Mitogenic and Non-Mitogenic Protoplasts M. Saleem et al.	137
Measurement of Cytoplasmic CA^{2+} and H^+ in Barley Aleurone Protoplasts D. S. Bush et al.	139

VIII

The Effect of Secretion on Lipids and Their Distribution in Barley Aleurone Protoplasts	
M. J. Cornejo et al.	143
Incidence of Growth Regulators on RNA/ DNA Levels in Protoplasts as Analysed by Acridine Orange Staining and Flow Cytometry	
C. Bergounioux et al.	145
IAA, ABA Content and Metabolism in Maize Root Protoplasts	
Ch. Jolles and P. E. Pilet	147
Some Metabolic Peculiarities of Isolated Protoplasts	
V. V. Lozovaya et al.	149
Gene Transfer by Individual Manipulation of Plant Cells	
G. Spangenberg and G. Neuhaus	151
Potentials of Protoplast Fusion in Plant Breeding Programmes	
K. Glimelius	159
Use of Protoplasts in Plant Breeding: Cytoplasmic Aspects	
G. Pelletier et al.	169
Protoplast Fusion between <i>Eruca sativa</i> and <i>Brassica napus</i> - Analysis of Regenerated Plants	
J. Fahleson et al.	177
Fertility and Chromosome Stability in <i>Brassica napus</i> Resynthesised by Protoplast Fusion	179
E. Sundberg et al.	179
Involvement of Protoplast Fusion in Cauliflower Breeding	
D. Carter et al.	181
Protoplast Fusion as a Method of Increasing Cytoplasmic Heterogeneity in <i>Brassica napus</i>	183
S. A. Yarrow et al.	183
Selection of a Universal Hybridizer in <i>Sinapis turqida</i> Del. and Regeneration on Plantlets from Somatic Hybrids with <i>Brassica</i> species	
K. Toriyama et al.	185
Towards the Introduction of Cytoplasmic Male Sterility (CMS) into <i>Brassica napus</i> Through Protoplast Fusion	
M. S. McLellan et al.	187
Production of Somatic Hybrid Plants, 'Brassicomoricaandia', Through Protoplast Fusion between <i>Moricaandia arvensis</i> and <i>Brassica oleracea</i>	
K. Hinata et al.	189
The Use of Haploid Protoplast Fusion to Combine Cytoplasmic Atrazine Resistance and Cytoplasmic Male Sterility in <i>Brassica napus</i>	
P. V. Chuong et al.	191
Somatic Hybridization of Diploid Potato Lines, A Tool in Potato Breeding	
L. Schilde-Rentschler et al.	195
Somatic Hybridization between Anther-Derived Dihaploid Lines of <i>Solanum tuberosum</i> L. (Potato)	
S. B. Karlsson and T. Eriksson	197
Fusion of Dihaploid <i>Solanum tuberosum</i> Protoplasts and Trials of Hybrid Selection with Phytotoxins	
C. Möllers et al.	199

Production and Field Assessment of Somatic Hybrids between Dihaploid <i>Solanum tuberosum</i> and <i>Solanum brevidens</i> N. Fish and M. G. K. Jones	201
Fusion of <i>Solanum tuberosum</i> L. cv. Explorer (Potato) and <i>Solanum melongena</i> L. cv. Imperial Black Beauty (Eggplant) Protoplasts and Subsequent Callus Regeneration G. G. Li and F. Constabel	203
Somatic Fusions of <i>Solanum</i> Species J. P. Helgeson et al.	205
Flow Cytometric Sorting of Potato Heterokaryons with Inhibition of Cell Wall Synthesis Before Sorting K. J. Puite et al.	209
An Improved Peg Fusion Procedure for Flow Sorting of Plant Protoplasts P. K. Chand et al.	211
Regeneration and Evaluation of Somatic Hybrid Plants between <i>Solanum tuberosum</i> and <i>Lycopersicon pimpinellifolium</i> M. Okamura	213
Studies of Gene Mapping in the Potato Using Somatic Hybrids of <i>Solanum tuberosum</i> L. + <i>Nicotiana plumbaginifolia</i> S. E. De Vries et al.	215
Interspecific Expression of AEC-Resistance in Somatic Hybrids of AEC-Resistant <i>Solanum tuberosum</i> and Nitrate-Reductase- Deficient <i>Nicotiana plumbaginifolia</i> M. J. Tempelaar et al.	219
Interspecific Protoplast Fusion for the Transfer of Atrazine Resistance from <i>Solanum nigrum</i> to Tomato (<i>Lycopersicon</i> <i>esculentum</i> , L.) S. M. Jain et al.	221
Somatic Hybridization between Tomato and Other <i>Lycopersicon</i> or <i>Solanum</i> Species A. Zelcer et al..	225
Transfer of Regeneration Capacity from <i>Lycopersicon peruvianum</i> to <i>L. esculentum</i> by Protoplast Fusion J. Wijbrandi et al.	227
Somatic Hybridization in <i>Lycopersicon</i> ; Using Gamma-Irradiated <i>Nicotiana tabacum</i> SR-1 or <i>Lycopersicon peruvianum</i> F. H. M. Derks and C. M. Colijn-Hooymans	231
Regeneration of Somatic Hybrid Plants between Tobacco (<i>Nicotiana tabacum</i> L.) and Black Nightshade (<i>Solanum nigrum</i> L.) X. S. Wan et al.	233
The Use of Streptomycin Resistance and Chlorophyll Deficiency for Selection of Somatic Hybrids Between <i>Nicotiana tabacum</i> and <i>N. rustica</i> S. Toki and T. Kameya	235
Intra- and interspecific Gametosomatic Hybridisation Within the Genus <i>Petunia</i> C. H. Lee and J. B. Power	237
The Transfer of Cytoplasmic Male Sterility (CMS) by Intraspecific Somatic Hybridisation in <i>Petunia hybrida</i> (Hort) VILM J. M. Chartier-Hollis et al.	241

Applimation of Protoplast Fusion to an Ornamental Breeding Programme	
D. L. Arhold et al.	243
Formation of Carrot Cybrids Based on Metabolic Complementation by Fusion between X-Irradiated Cells and Iodoacetamide-Treated Cells	
H. Ichikawa et al.	245
Optimization of Conditions for Somatic Cybridization of <i>Daucus carota</i> L.	
S. Roest et al.	249
Isolation and Fusion of <i>Apium graveolens</i> (Celery) and <i>Levisticum officinale</i> (Lovage) Mesophyll Protoplasts	
A. Donovan et al.	251
Electrofusion of Plant and Fungal Protoplasts	
P. T. Lynch et al.	253
Regeneration and Analysis of Callus from Flow-Sorted Heterokaryons of Soybean (<i>Glycine max</i>) and <i>G. canescens</i>	
N. Hammatt et al.	255
Interspecific Somatic Hybridization Studies in the Genus <i>Lotus</i>	
M. A. Aziz et al.	257
Interspecific Hybrid Lines of <i>M. sativa</i> and <i>M. arborea</i> by Protoplast Electrofusion	
S. Arcioni et al.	259
Electrofusion and Electroporation of Sugar Beet (<i>Beta vulgaris</i> L.) Protoplasts	
C. Eady et al.	261
The Production and Electrofusion of <i>Beta</i> cytoplasts	
R. D. Hall and F. A. Krens	263
Inactivation of Sugarbeet Protoplasts Using Acridin Orange, an Agent for Late Selection of Fusion Products	
H. C. Pedersen et al.	265
Mitochondrial DNA Amplification in Somatic Hybrid Cells of Grasses	
P. Ozias-Akins et al.	267
Plant Regeneration from Electrofused Protoplasts of <i>Chrysanthemum morifolium</i> and <i>Salpiglossis sinuata</i>	
N. Khalid et al.	269
Electrofusion of Chemically-Aggregated Protoplasts Derived from Mesophyll Tissue and Habituated Cells of <i>Catharanthus roseus</i>	
C. Perronnet et al.	271
Studies on the Tranfer of the Mitochondrial Genome Through Protoplast Fusion in Rice	
H. S. Gupta et al.	273
Increase of Genetic Variability by Asymmetric Cell Hybridization and Isolated Chromosome Transfer	
D. Dudits	275
Cell-Mediated Gene Transfer	
I. Famelaer et al.	283
Protoplast Fusion of Kanamycin Resistant, CNX- <i>Nicotiana plumbaginifolia</i> with Streptomycin Resistant <i>N. tabacum</i> (SR1) and the Effect of Irradiation of the <i>N. tabacum</i> Parent.	
M. Koornneef et al.	287

Selection for Resistance to Phoma Lingam Using Pycnospore Infections of Plants In-Vivo and Sirodesmin PL as Selective Agent In-Vitro	
C. Sjödin and K. Glimelius	289
Induction of Micronuclei by Amiprophos-Methyl and Their Application for Transfer of Single, Specific Chromosomes in Plant Cells	
K. Sree Ramulu et al.	293
Isolation of Microprotoplasts	
H. A. Verhoeven et al.	297
Direct Cell to Cell Transfer of Mitochondria by Microinjection	
H. A. Verhoeven and J. Blaas	299
Classification and Sorting of Plant Chromosomes Using Flow Cytometry	
J. Conia et al.	301
Application of Flow Cytometry for the Isolation of Metaphase Chromosomes from Protoplasts of <i>Nicotiana plumbaginifolia</i>	
C. P. M. van der Valk and H. A. Verhoeven	303
Electroporation for DNA Delivery to Plant Protoplasts	
G. W. Bates et al.	305
Electromanipulation of Protoplasts	
M. J. Tempelaar and M. G. K. Jones	311
Plant Protoplast Electroporability: Role of Electrical and Biological Parameters	
M. H. Montane et al.	315
The Fusogenic State of Plant Protoplasts as Related to DYE/DNA Uptake	
G. van der Steege et al.	317
Genetic Manipulation of Plant Cells and Organelles with a Laser Microbeam	
G. Weber et al.	319
Electric Field Mediated DNA Uptake and Gene Expression in Mesophyll, Suspension Culture, and Tuber Protoplasts of Wild and Cultivated Potato	
H. Jones and M. G. K. Jones	323
Introduction of Selectable Markers into Different Diploid Potato (<i>Solanum tuberosum</i> L.) Genotypes by Direct Gene Transfer	
J. Masson et al.	325
Direct Gene Transfer in <i>Petunia hybrida</i> Protoplasts: Evidence for Co-Transformation	
D. Tagu et al.	329
Electroporation of Tobacco Protoplasts: A. Model System to Study Plant Gene Expression	
M. T. J. de Both and M. G. K. Jones	331
Infection of Tobacco Protoplasts with RNA of a Pepper Strain of Tobacco Mosaic Virus by Electroporation	
I. Diaz et al.	333
Comparison of Direct Gene ₂ Transfer Into <i>Nicotiana</i> Protoplasts by Electroporation and Mg^{2+} /PEG Methods	
P. J. Dix et al.	335

XII

Quantification of Transient Expression Levels of Genes Transferred to Plant Protoplasts by Electroporation J. Denecke et al.	337
Gene Transfer by Electroporation in <i>Alnus incana</i> Protoplast A. Séguin and M. Lalonde	339
Transformation of Rice Protoplasts by Direct DNA Uptake H. Yang et al.	341
Isolation, Culture and Morphogenesis from Wheat Protoplasts, and Study of Expression of DNA Constructs by Direct Gene Transfer B. T. Lee et al.	343
UV Inducible Transient Expression of Chimeric CHS-NPTII in Parsley Protoplasts S. Lipphardt et al.	347
Modification of Plants Using Intracellular Associations of L-Form Bacteria E. J. Allan et al.	349
Transformation of <i>Brassica nigra</i> through Protoplast Cocultivation with <i>Agrobacterium tumefaciens</i> M. D. Sacristan et al.	351
Transformation of <i>Brassica</i> Species via Direct Gene Transfer C. Golz et al.	353
Genetic Transformation of Diploid <i>Solanum tuberosum</i> by Direct DNA Transfer and Mediated by <i>Agrobacterium tumefaciens</i> S. Knapp et al.	355
Optimization of Direct Gene Transfer in Tomato C. Pieterse and M. Koornneef	357
Transformation Studies in Tobacco, Moth Bean and <i>Brassica</i> Species F. Köhler et al.	359
Transposition and Regulation of the EN Elements of Maize Assayed in Transformed Tobacco S. R. Grant et al.	363
Initiation of Cell Suspensions, Protoplast Culture, and Direct Gene Transfer to Protoplasts of <i>Secale cereale</i> L. (Rye) J. Zimny et al.	365
Protoplast Culture and DNA Uptake in <i>Echinocloa</i> D. F. Chen et al.	369
Transient Expression of Foreign Genes in Wheat Protoplasts C. Brown et al.	371
Protoplast Culture and Transformation Studies of Triticale (x <i>Triticosecale</i> Wittmack) A. Stolarz et al.	373
Analysis of the <i>Zea Mays</i> Sucrose Synthase Promotor by Transient Gene Expression in Maize Protoplasts C. Maas et al.	377
Protoplast Culture of 2n <i>S. tuberosum</i> as a Source of Mutant Phenotypes A. Sadanandam et al.	379
Cytoplasmic or Nuclear Control of Male Sterility in Protoplast-Derived Plants of <i>Nicotiana sylvestris</i> R. Depaepa et al.	381

Selection and Characterization of Nitrate Reductase-Deficient Mutants of <i>Nicotiana plumbaginifolia</i> F. Pelsy et al.	383
Isolation of Temperature-Sensitive Auxin-Requiring Variants of <i>Nicotiana plumbaginifolia</i> Y. Francheboud and P. J. King	387
The Use of Phosphinothricin Resistance as a Selectable Marker in Tobacco Protoplast Transformation M. De Block et al.	389
Selection for Salt/Drought Tolerance Using Isolated Protoplasts and Protoplast-Derived Calli of Colt Cherry (<i>Prunus avium</i> X <i>Pseudocerasus</i>) S. J. Ochatt and J. B. Power	391
Field Tests of Progeny from Protoplast Regeneration Oilseed Rape K. Vamling and W. Heneen	393
Studies of Lettuce Plants Regenerated from Protoplasts Y. Roguet	395
Somaclonal Variations for Indole Alkaloid Accumulation in Protoclones Derived from an Habituated Strain of <i>Catharanthus roseus</i> C. Perronnet et al.	397
Somaclonal Variations of Dihydrofuroquinoline Alkaloids in Cell Lines Issued from Strains and Leaf Mesophyll of <i>Choisya Ternata</i> by Protoplast Cloning J. Trémouillaux-Guiller et al.	399
Some Aspects of Salinity Tolerance of Calli Derived from Leaf Tomato Protoplasts J. Rossi et al.	401
Proto-Variation in Protoplast Derived <i>Brassica napus</i> Plants S. M. Jain and R. J. Newton	403
INDEX OF ORGANISM	405
INDEX OF AUTHORS	411
