

CONTENTS

List of Participants	v
Preface	vii

I Structure and Expression of DNA Virus Genes

Molecular Analysis of Adenovirus Transformation	
<i>M. Perricaudet, G. Westin, J. M. Le Moullec, L. Visser, J. Zabielski, P. Aleström, G. Akusjärvi, A. Virtanen and U. Pettersson</i>	3
Adenovirus mRNA Production is Controlled both by Differential Transcription and Differential Stability of mRNA	
<i>J. E. Darnell, Jr., M. Wilson, J. R. Nevins and E. Ziff</i>	19
An Early Adenovirus Glycoprotein and its Association with Transplantation Antigens	
<i>Håkan Persson, Sune Kvist, Per A. Peterson and Lennart Philipson</i>	27
The Control of Adenovirus Early Gene Expression	
<i>Håkan Persson, Hans-Jürg Monstein and Lennart Philipson</i>	47
Mutational Analysis of Regulatory Elements of Simian Virus 40	
<i>Daniel Nathans</i>	57

II Structure and Expression of Retrovirus Genes

OK 10 Virus-transformed Bone-marrow-derived Cell Line Produces Infectious Transforming Virus without Detectable Associated Virus	
<i>Susan Pfeifer, Ralf F. Pettersson, Ismo Ulmanen, Antti Vaheri and Nils Oker-Blom</i>	69
Origin of the Transforming Insert in the Abelson Murine Leukemia Virus Genome	
<i>David Baltimore, Stephen P. Goff, Eli Gilboa and Owen N. Witte</i>	85
Structural and Functional Properties of DNA Intermediates in the Replication of Retroviruses	
<i>Harold E. Varmus, John E. Majors, Ronald Swanstrom, William J. DeLorbe, Gregory S. Payne, Stephen H. Hughes, Suzanne Ortiz, Nancy Quintrell and J. Michael Bishop</i>	93

III Structure and Expression of RNA Virus Genes

Expression of the Genome of Single-stranded Messenger-sense RNA Viruses	
<i>Paul Kaesberg</i>	113
Antigenic Variation and Structure of Influenza Virus	
<i>G. G. Brownlee</i>	129
The 5' Ends of Influenza Viral Messenger RNAs are Donated by Capped Cellular RNAs	
<i>Robert M. Krug, Michele Bouloy and Stephen J. Plotch</i>	141
Drift and Shift of Influenza A-type Virus: Comparison of the Hemagglutinin Gene in H3 Subtypes	
<i>Willy Min Jou, Martine Verhoeven, Rongxiang Fang and Walter Fiers</i>	155
Phosphoproteins of Vesicular Stomatitis Virus and of the Host Cell	
<i>Gail M. Clinton and Alice S. Huang</i>	163
Interactions of mRNA 5'-terminal Region During Initiation of Eukaryotic Protein Synthesis	
<i>Aaron J. Shatkin, Edward Darzynkiewicz, Kunio Nakashima, Nahum Sonenberg and Stanley M. Tahara</i>	173
Synthesis and Functions of Alphavirus Gene Products	
<i>Leevi Kääriäinen, Katsuyuki Hashimoto, Nisse Kalkkinen, Sirkka Keränen, Päivi Lehtovaara, Marjut Ranki, Jaakko Saraste, Dorothea Sawicki, Stanley Sawicki, Ismo Ulmanen and Pertti Väänänen</i>	189
Semliki Forest Virus—A Model System to Study Membrane Structure and Assembly	
<i>Henrik Garoff</i>	205
Heterogeneity of Semliki Forest Virus 18S Defective Interfering RNA Containing Heterogeneous 5'-terminal Nucleotide Sequences	
<i>Ralf F. Pettersson and Leevi Kääriäinen</i>	217
Structural Analysis of Semliki Forest Virus Defective Interfering RNA Using DNA Copies	
<i>Hans Söderlund, Sirkka Keränen, Päivi Lehtovaara, Ilkka Palva and Ralf F. Pettersson</i>	229

IV Structure and Expression of Eukaryotic Genes

Structure, Organization and Developmental Expression of the Chorion Multigene Families	
<i>F. C. Kafatos</i>	239

Gene Amplification and Methotrexate Resistance in Cultured Cells <i>Robert T. Schimke</i>	249
Three Classes of Small RNA-protein Complexes Precipitated by <i>Lupus</i> Antibodies <i>J. A. Steitz, M. R. Lerner, J. A. Boyle, N. C. Andrews, J. P. Hendrick and I. G. Miller</i>	257
A Search for the Promoter Sequences Involved in Initiation of Transcription of Eukaryotic Genes Transcribed by RNA Polymerase B <i>B. Wasylyk, A. Buchwalder, P. Sassone-Corsi, C. Kédinger, J. Corden and P. Chambon</i>	265
Specific 5'-flanking Sequences Promote Initiation of Cell-free Transcription of the Ovalbumin Gene <i>Ming-Jer Tsai, Sophia Y. Tsai and Bert W. O'Malley</i>	279
Expression of Cloned Eukaryotic Genes in Microorganisms <i>O. Mercereau-Puijalon, A. Garapin, F. Colbère-Garapin and P. Kourilsky</i>	295
Organization of Human Genomic DNA-encoding Pro-opiomelano- cortin <i>Annie C. Y. Chang, Madeleine Cochet and Stanley N. Cohen</i>	305
Construction of Functional Yeast Minichromosomes Containing Centromeric DNA <i>John Carbon and Louise Clarke</i>	313
