Contributors	xiii

SECTION I Chemistry of Plant Volatiles

Chapter 1	Practical Approaches to Plant Volatile Collection and Analysis	3
	<i>Dorothea Tholl, Alexander Weinhold, and Ursula S. R. Röse</i>	
Chapter 2	Analysis of Internal Pools of Plant Volatiles.....	27
	<i>Yoko Iijima, Naomi Okubo, and Fukuyo Tanaka</i>	
Chapter 3	Bioassay-Guided Semiochemical Discovery in Volatile-Mediated Specialized Plant–Pollinator Interactions with a Practical Guide to Fast-Track Progress	39
	<i>Björn Bohman, Anna-Karin Borg-Karlson, and Rod Peakall</i>	
Chapter 4	The Chemical Diversity of Floral Scent.....	57
	<i>Jette T. Knudsen and Jonathan Gershenzon</i>	
Chapter 5	Vegetative and Fruit Volatiles for Human Consumption	79
	<i>Bhagwat Nawade, Mossab Yahyaa, Efraim Lewinsohn, and Mwafaq Ibdah</i>	

SECTION II Biochemistry, Molecular Biology, and Evolution of Plant Volatiles

Chapter 6	The Role of Transcriptome Analysis in Shaping the Discovery of Plant Volatile Genes: Past, Present, and Future	99
	<i>Darren C. J. Wong, Rod Peakall, and Eran Pichersky</i>	
Chapter 7	Flux Distribution Dynamics at the Interface of Central Carbon Metabolism and Terpenoid Volatile Formation	119
	<i>Bernd Markus Lange</i>	
Chapter 8	Floral Scent Metabolic Pathways and Their Regulation	147
	<i>Joseph H. Lynch, Eran Pichersky, and Natalia Dudareva</i>	

Chapter 9	Biosynthesis and Regulation of Vegetative Plant Volatiles.....	165
	<i>Takao Koeduka, Koichi Sugimoto, and Kenji Matsui</i>	
Chapter 10	Biosynthesis and Regulation of Fruit Volatiles.....	183
	<i>José L. Rambla and Antonio Granell</i>	
Chapter 11	Biosynthesis and Regulation of Belowground Signaling Molecules.....	203
	<i>Lemeng Dong and Harro Bouwmeester</i>	
Chapter 12	Evolution of Scent Genes	217
	<i>Sylvie Baudino, Philippe Hugueney, and Jean-Claude Caissard</i>	
Chapter 13	Volatiles in Glands	235
	<i>Eran Pichersky</i>	
Chapter 14	Emission and Perception of Plant Volatiles.....	251
	<i>Itay Maoz, Pulu Sun, Michel A. Haring, Robert C. Schuurink, and Natalia Dudareva</i>	

SECTION III *Volatiles in Plant–Plant, Plant–Insect and Plant–Microbial Interactions*

Chapter 15	Floral Volatiles for Pollinator Attraction and Speciation in Sexually Deceptive Orchids.....	271
	<i>Rod Peakall, Darren C. J. Wong, Björn Bohman, Gavin R. Flematti, and Eran Pichersky</i>	
Chapter 16	Behavioral Responses to Floral Scent: Experimental Manipulations and Multimodal Plant–Pollinator Communication	297
	<i>Robert A. Raguso</i>	
Chapter 17	Herbivore-Induced Plant Volatiles as a Source of Information in Plant–Insect Networks	327
	<i>Marcel Dicke and Dani Lucas-Barbosa</i>	
Chapter 18	Belowground Plant Volatiles: Plant–Plant, Plant–Herbivore and Plant–Microbial Interactions	347
	<i>Yifan Jiang, Dorothea Tholl, and Feng Chen</i>	

Chapter 19 Tree Volatiles: Effects of Biotic and Abiotic Factors on Emission
and Biological Roles..... 361
Erica Perreca, Jonathan Gershenzon, and Franziska Eberl

SECTION IV Genetic Improvements of Plant Volatiles

Chapter 20 Metabolic Engineering of Plant Volatiles: Floral Scent, Flavors, Defense..... 379
*Milan Plasmeijer, Pan Liao, Michel A. Haring, Natalia Dudareva,
and Robert C. Schuurink*

Index..... 405
