List of Figures	xv
List of Tables	xvii
Preface	xix
Authors	xxi

Chapter 1	Introduction	1
1.1	Herbal Drugs	2
1.2	Terms Relating to Herbal Medicines	2
1.2.1	Herbal Medicines	2
1.2.2	Herbal Materials	3
1.2.3	Herbal Preparations	3
1.2.4	Finished Herbal Products or Herbal Medicinal Products	3
1.3	Indian System of Medicine (ISM)	3
1.4	Herbal Regulation in India	5
1.5	Risk Assessment	6
1.6	Quality Control of Herbal Drugs	6
1.6.1	Identity	6
1.6.2	Purity	6
1.6.3	Content or Assay	7
1.6.4	Several Problems Influence the Quality of Herbal Drugs	8
1.7	Standardization of Herbal Formulation	8
1.7.1	Specification	9
1.7.2	Specifications for Herbal Substances	9
1.7.3	Characterization	9
1.7.4	Pharmacopoeial Tests and Acceptance Criteria	10
1.7.5	In-Process Tests	10
1.7.6	Reference Standard	10
1.8	Drug Adulteration	11
1.9	Conclusion	11
	References	12

Chapter 2	Method of Extraction	13
2.1	Introduction	13
2.2	Solvent for Extraction	13
2.3	Selection of the Solvents	14
2.4	Regeneration of the Solvent	14
2.5	Solutions (Solute and Solvent)	15
2.6	Factors Affecting Choice of Extraction Process	15

2.6.1	Character of Drug.....	15
2.6.2	Therapeutic Value of the Drug.....	15
2.6.3	Stability of Drug.....	16
2.6.4	Cost of Drug.....	16
2.6.5	Solvent.....	16
2.6.6	Concentration of Product.....	16
2.6.7	Recovery of Solvent from the Marc.....	16
2.7	Procedures for Extraction of Herbal Drugs.....	16
2.7.1	Maceration.....	17
	2.7.1.1 Modification of General Processes of Maceration.....	18
2.7.2	Vortical or Turbo Extraction.....	19
2.7.3	Ultrasound Extraction.....	19
2.7.4	Extractions by Electrical Energy.....	20
2.7.5	Percolation and Re-Percolation.....	20
	2.7.5.1 Percolation Procedure.....	21
	2.7.5.2 Modification of the General Process of Percolation.....	21
	2.7.5.3 Reserved Percolation.....	22
2.7.6	Cover and Run Down Method.....	22
2.7.7	Small Scale or Laboratory Scale Extraction.....	23
	2.7.7.1 Hot Continuous Extractions: Soxhletion....	23
	2.7.7.2 Continuous Apparatus (Official Extractor).....	23
2.7.8	Large Scale Extractor (Counter Current Extractions).....	25
2.7.9	Infusion and Decoction.....	26
	2.7.9.1 General Method for Preparing Fresh Infusion.....	26
2.7.10	Aqueous Alcoholic Extraction by Fermentation.....	26
2.7.11	Steam Distillation.....	27
2.7.12	Supercritical Fluid Extractions.....	27
2.7.13	Phytonics Process.....	28
2.7.14	High Pressure Extraction (HPE).....	28
2.8	Conclusions.....	29
	References.....	29

Chapter 3	Separation and Isolation of Plant Constituents.....	31
3.1	Introduction.....	31
3.2	Classes of Phyto-Constituents.....	31
	3.2.1 Glycosides.....	31
	3.2.2 Alkaloids.....	32
	3.2.3 Flavonoids.....	33
	3.2.4 Terpenes.....	34
	3.2.5 Phenolics.....	35

3.2.6	Saponins	35
3.2.7	Tannins	36
3.2.8	Steroids	36
	References	36
Chapter 4	Methods of Phyto-Constituent Detection.....	39
4.1	Introduction	39
4.2	Phytochemical Analysis	39
4.2.1	Phytochemical Analysis Tests for Alkaloids.....	39
4.2.2	Phytochemical Screening of Anthocyanin.....	40
4.2.3	Phytochemical Analysis Tests for Anthraquinone	40
4.2.4	Phytochemical Analysis Test for Cardiac Glycosides.....	40
4.2.5	Phytochemical Analysis Tests for Coumarins.....	40
4.2.6	Phytochemical Analysis Tests for Cynogenetic Glycosides.....	41
4.2.7	Phytochemical Analysis Tests for Phenolics and Flavonoids.....	41
4.2.8	Phytochemical Analysis Test for Saponins	41
4.2.9	Phytochemical Analysis Tests for Triterpenes	42
4.2.10	Phytochemical Analysis Tests for Steroids.....	42
4.2.11	Phytochemical Analysis Tests for Tannins.....	42
4.2.12	Phytochemical Analysis Tests for Fixed Oils and Fats.....	43
4.2.13	Phytochemical Analysis Test for Gums and Mucilages.....	43
4.2.14	Phytochemical Analysis Tests for Lactones	43
4.2.15	Phytochemical Analysis Test for Diterpenes.....	43
4.3	Conclusion	43
	References	44
Chapter 5	Regulatory Aspects for Herbal Drugs.....	45
5.1	Introduction	45
5.2	Regulation.....	46
5.2.1	Aim of Regulatory Guidelines for Herbal Medicines	46
5.2.2	Regulation and Registration of Herbal Medicines	46
5.3	WHO Regulatory Requirements	47
5.3.1	Objectives	48
5.3.2	Guidelines for the Regulation of Herbal Medicines in the Southeast Asia Region	48
5.3.3	WHO Guidelines on Safety Monitoring of Herbal Medicines in Pharmacovigilance Systems	48

5.3.4	WHO Guidelines on Good Agricultural and Collection Practices (GACP) for Medicinal Plants ...	48
5.3.5	National Policy on Traditional Medicine (TM) and Regulation of Herbal Medicine	49
5.3.6	WHO Guidelines for Quality Control of Herbal Formulation	49
5.3.7	WHO Guidelines for Herbal Drug Standardization ...	49
5.4	Herbal Drug Regulations in India	50
5.5	Regulatory Aspects and Approval of Herbal Drugs in Different Countries.....	51
5.5.1	European Herbal Guidelines	52
5.5.1.1	European Medicines Agency—EMA.....	52
5.5.2	United States of America	52
5.5.3	Australia	53
	References	53
Chapter 6	Ethnopharmacology of Medicinal Plants.....	55
6.1	Introduction	55
6.2	Phytotherapy	55
6.3	Practicing Herbal Medicine.....	56
6.4	Need of Documentation of Ethnopharmacological Plants	57
6.5	Ethnopharmacognostical Studies of Medicinal Plants of Chhattisgarh, India	57
6.6	Conclusion	59
	References	59
Chapter 7	Quality Control of Herbal Medicine	61
7.1	Introduction	61
7.2	Quality Control: Present Scenario.....	61
7.3	Quality Control of Herbal Drugs.....	62
7.3.1	Identity	62
7.3.2	Purity	63
7.3.3	Content or Assay.....	63
7.4	Stability Studies of Herbal Medicines.....	63
7.4.1	Specific Characteristics of Herbal Medicinal Products	64
7.4.2	Analytical Methods for Herbal Products.....	64
7.4.3	Stability Study of Herbal Drugs	64
7.4.4	Shelf Life	65
7.4.5	Challenges in Stability Testing of Herbal Medicinal Products.....	65
7.4.6	Predictable Changes in Herbal Drug Material	65
7.4.7	Importance of Stability Testing	66

7.5	Biological Markers for Herbal Medicines	67
7.5.1	Markers are Categorized into Two Classes	67
7.5.1.1	DNA Markers.....	67
7.5.1.2	Chemical Markers.....	68
7.6	Conclusion	71
	References	72
Chapter 8	Bioavailability of Herbal Drugs	75
8.1	Need for Bioavailability Enhancers.....	75
8.2	Drug Absorption Barriers.....	76
8.3	Mechanism of Action of Bioenhancers	76
8.4	Medicinal Plants and their Compounds as Drug Bioavailability Enhancers.....	77
	References	78
Chapter 9	Thermal Analysis of Herbal Drugs	79
9.1	Introduction	79
9.1.1	Thermogravimetry (TG).....	79
9.1.1.1	Characteristics	80
9.1.1.2	Applications of Thermogravimetric Analysis.....	80
9.1.2	Differential Thermal Analysis (DTA).....	80
9.1.2.1	Characteristics	80
9.1.2.2	Applications	81
9.1.3	Dynamic Mechanical Analysis (DMA)	81
9.1.3.1	Principles of DMA.....	81
9.1.3.2	Instrument and Working of DMA	81
9.1.4	Thermomechanical Analysis (TMA)	82
9.1.4.1	Instrumentation of TMA.....	82
9.1.4.2	Applications of TMA.....	83
9.2	Conclusion	84
	References	84
Chapter 10	Validation of Herbal Drugs	85
10.1	Introduction	85
10.2	Concept of Validation.....	86
10.3	Validation of Herbal Drugs	86
10.4	Process Validation	87
10.5	Validation According to WHO.....	87
10.6	Value Addition.....	87
10.7	Conclusion	88
	References	88

14.2.3	Powder Studies	127
14.2.4	Histochemical Detection	128
14.2.4.1	Cellulose Cell Walls.....	129
14.2.4.2	Lignified Cell Walls.....	129
14.2.4.3	Suberized or Cuticular Cell Walls	129
14.2.4.4	Aleurone Grains.....	129
14.2.4.5	Calcium Carbonate	129
14.2.4.6	Calcium Oxalate	129
14.2.4.7	Fats, Fatty Oils, Volatile Oils, and Resins	129
14.2.4.8	Hydroxyanthraquinones.....	130
14.2.4.9	Inulin.....	130
14.2.4.10	Mucilage.....	130
14.2.4.11	Starch	130
14.2.4.12	Tannin	130
14.2.4.13	Leaf Stomata.....	130
14.2.5	Measurement of Specimen	130
14.2.5.1	Determination of the Stomatal Index	131
14.3	Physical Standardization of Herbal Drugs	131
14.3.1	Foreign Organic Matter	132
14.3.2	Viscosity	132
14.3.3	Melting Point	132
14.3.4	Solubility	132
14.3.5	Moisture Content and Volatile Matter.....	132
14.3.6	Optical Rotation	133
14.3.7	Refractive Index.....	133
14.3.8	Ash Values and Extractives	133
14.3.9	Total Ash	133
14.3.9.1	Determination of Total Ash	133
14.3.10	Acid Insoluble Ash	134
14.3.10.1	Determination of Acid Insoluble Ash.....	134
14.3.11	Water Soluble Ash	134
14.3.11.1	Determination of Water Soluble Ash.....	134
14.3.12	Bitterness Value.....	134
14.3.13	Hemolytic Activity	135
14.3.14	Swelling Index	135
14.3.15	Foaming Index.....	136
14.3.15.1	Procedure.....	136
14.3.16	Extractive Value	136
14.3.17	Total Solid Content.....	136
14.3.18	Water Content.....	137
14.3.19	Volatile Oil Content.....	137
14.3.20	Determination of Tannins.....	137
14.3.21	Loss on Drying (Volatile Matter)	138
14.4	Chemical Methods.....	138
14.4.1	Analytical Methods	138

14.4.2	Thin Layer Chromatography (TLC).....	139
14.4.2.1	Equipment.....	140
14.4.2.2	Methodology	140
14.4.2.3	Determination of Rf Value	141
14.4.3	Chemical Examination of Herbal Drugs.....	141
14.4.3.1	Detection of Alkaloids	141
14.4.3.2	Detection of Carbohydrates and Glycosides	142
14.4.3.3	Detection of Phytosterols.....	142
14.4.3.4	Detection of Fixed Oils and Fats	142
14.4.3.5	Detection of Saponins.....	142
14.4.3.6	Detection of Phenolic Compounds and Tannins.....	142
14.4.3.7	Detection of Proteins and Free Amino Acids	142
14.4.3.8	Detection of Gums and Mucilages.....	142
14.4.3.9	Detection of Volatile Oil.....	142
14.4.4	Radioactive Contamination	143
14.5	Biological Methods.....	143
14.5.1	Bioassay	143
14.5.1.1	Types of Bioassays	144
14.5.2	Microbial Contamination	146
14.5.2.1	Total Viable Aerobic Count	146
14.5.2.2	Aflatoxins.....	147
14.5.3	Toxicological Standardization	147
14.5.3.1	Pesticides.....	148
14.5.3.2	Determination of Arsenic and Heavy Metals.....	148
14.6	Validation	149
14.7	Determination of Arsenic and Heavy Metals.....	149
14.8	Conclusion	150
	References	150
Chapter 15	Omics Techniques	153
15.1	Introduction	153
15.2	Omics Techniques	153
15.2.1	Genomics and its Modified Techniques	153
15.2.2	Proteomics	153
15.2.3	Transcriptomics	154
15.2.4	Metabolomics	154
15.2.5	Application of Omics Techniques in the Context of Herbal Medicine.....	155
15.3	Conclusion	155
	References	156

Chapter 16	Toxicity Study of Plant Materials.....	157
16.1	Introduction	157
16.2	Need of Herbal Toxicity Testing.....	157
16.3	Toxicity of Herbs	161
16.4	Safety and Efficacy of Herbals	162
	References	163
Chapter 17	Biological Markers for Quality Control of Herbal Medicines	169
17.1	Introduction	169
17.2	Markers are Categorized into Two Classes	169
17.2.1	DNA Markers	170
17.2.1.1	Applications of Biological Markers	170
17.2.2	Chemical Markers	171
17.2.2.1	Therapeutic Components	171
17.2.2.2	Bioactive Components	171
17.2.2.3	Synergistic Components	171
17.2.2.4	Characteristic Components.....	172
17.2.2.5	Main Components.....	172
17.2.2.6	Correlative Components	173
17.2.2.7	Toxic Components	173
17.2.2.8	Applications of Chemical Markers.....	173
17.3	Conclusion	174
	References	174
Chapter 18	Pollutants for Herbal Drugs.....	177
18.1	Introduction	177
18.2	WHO Guidelines for Contaminants and Residues.....	177
18.2.1	Pesticides	178
18.2.2	Pesticide Residue.....	178
18.2.3	Pesticidal Toxicity	178
18.3	Heavy Metal Toxicity to Plants	178
18.4	Potentially Hazardous Contaminants and Residues in Herbal Medicines	179
18.5	Chemical Contaminants	179
18.5.1	Toxic Metals and Non-Metals	179
18.5.2	Persistent Organic Pollutants (POPs)	179
18.5.3	Residual Solvents.....	182
18.6	Radioactive Contamination	182
18.7	Mycotoxins and Endotoxins	182
18.8	Biological Contaminants	182
18.8.1	Microbiological Contaminants.....	182
18.8.2	Parasitic Contamination	183
18.8.3	Agrochemical Residues	183

18.9 Pesticide Residues.....	183
18.10 Biochemical Changes in Medicinal Plant Leaves as a Biomarker of Pollution	183
18.10.1 APTI Factors	184
18.11 Conclusion	184
References	185
Index.....	187
