CHAPTERS

1	Introduction to Regression Procedures	1
2	Introduction to Analysis-of-Variance Procedures	19
3	Introduction to Categorical Data Analysis Procedures	27
4	Introduction to Multivariate Procedures	35
5	Introduction to Discriminant Procedures	39
6	Introduction to Clustering Procedures	47
7	Introduction to Scoring Procedures	85
8	Introduction to Survival Analysis Procedure	87
9	The Four Types of Estimable Functions	89
10	The ACECLUS Procedure	107
11	The ANOVA Procedure	125
12	The CANCORR Procedure	155
13	The CANDISC Procedure	173
14	The CATMOD Procedure	189
15	The CLUSTER Procedure	283
16	The DISCRIM Procedure	359
17	The FACTOR Procedure	449
18	The FASTCLUS Procedure	493
19	The FREQ Procedure	519
20	The GLM Procedure	549
21	The LIFEREG Procedure	641
22	The NESTED Procedure	667
23	The NLIN Procedure	675
24	The NPAR1WAY Procedure	713
25	The ORTHOREG Procedure	727
26	The PLAN Procedure	735

27	The PRINCOMP Procedure	751
28	The REG Procedure	773
29	The RSREG Procedure	877
30	The SCORE Procedure	897
31	The STEPDISC Procedure	909
32	The TREE Procedure	923
33	The TTEST Procedure	941
34	The VARCLUS Procedure	949
35	The VARCOMP Procedure	967

APPENDICES

1	Changes and Enhancements to SAS/STAT Procedures	979
2	Special SAS Data Sets	993

Index	1003
