THE GLASS TRANSITION AND THE NATURE OF  
THE GLASSY STATE\*

*Editors and Workshop Chairmen*

MARTIN GOLDSTEIN AND ROBERT SIMHA

---

CONTENTS

Introduction. *By MARTIN GOLDSTEIN AND ROBERT SIMHA* ..... 1

**Part I. Thermodynamic and Transport Properties of Liquids near  
the Glass Transition Temperature**

Configurational Statistical Thermodynamics of Polymer Liquids. <i>By ROBERT SIMHA</i> .....	2
Structural Relaxation in Vitreous Materials. <i>By C.T. MOYNIHAN, P.B. MACEDO, C.J. MONTROSE, P.K. GUPTA, M.A. DEBOLT, J.F. DILL, B.E. DOM, P.W. DRAKE, A.J. EASTEAL, P.B. ELTERMAN, R.P. MOELLER, H. SASABE, AND J.A. WILDER</i> .....	15
Metastable States in the Lennard-Jones Fluid. <i>By HAROLD J. RAVECHÉ</i> .....	36
Remarks on Polymer Viscosity. <i>By A.A. MILLER</i> .....	43
Dynamic Order Parameter Fluctuations in a Disordered System. <i>By J.W. HAUS AND J.R. CULLEN</i> .....	45
Discussion .....	47

**Part II. The Glass Transition: Thermodynamic and Kinetic Aspects**

Thermodynamics of the Glass Transition: Empirical Aspects. <i>By C.A. ANGELL AND W. SICHINA</i> .....	53
Statistical Thermodynamics of Configurational Properties. <i>By MARTIN GOLDSTEIN</i> .....	68
Physical Aging in Amorphous Glassy Polymers. <i>By L.C.E. STRUIK</i> .....	78
A Classification of the Kinds of Order Parameters. <i>By EDMUND A. DiMARZIO</i> .....	86
Application of Hole Theory to Estimate the Pressure-Induced Densification of Polymers. <i>By JOHN E. MCKINNEY</i> .....	88
Mechanically Enhanced Aging of Glassy Polymers. <i>By F.A. MYERS, F.C. CAMA, AND S.S. STERNSTEIN</i> .....	94
Discussion .....	100

**Part III. Secondary Relaxations**

Molecular Origin of Relaxations in Polymers. <i>By J. HEIJBOER</i> .....	104
Glass Transition and Secondary Relaxations in Molecular Liquids and Crystals. <i>By G.P. JOHARI</i> .....	117
Discussion .....	141

\*This series of papers is the result of a workshop entitled Workshop on the Glass Transition and the Nature of the Glassy State, held by The New York Academy of Sciences on December 10-12, 1975.

## **Part IV. Cryogenic Anomalies**

The Anomalous Thermal Properties of Glasses at Low Temperatures. <i>By R.O. POHL AND G.L. SALINGER</i> .....	150
Can Tunneling Levels Explain the Anomalous Properties of Glasses at Very Low Temperature? <i>By B.I. HALPERIN</i> .....	173
Discussion .....	180

## **Part V. Structure of Amorphous Solids**

Relation of Crystallization Behavior to Structure in Amorphous Systems.

<i>By D. TURNBULL</i> .....	185
Stability and Local Order in Simple Amorphous Packings. <i>By MICHAEL HOARE</i> .....	186
Recurring Themes in the Structure of Glassy Solids. <i>By G.S. CARGILL III</i> .....	208
Structure of the Amorphous State in Polymers. <i>By RAYMOND F. BOYER</i> .....	223
Discussion .....	234
