

CONTENTS

Recent Advances in the Separation of Plant Phenolics	1
C.F. Van Sumere, W. Van Brussel, K. Vante Castele, and L. Van Rompaey	
Advances in the Spectroscopy of Plant Phenolics	29
V. M. Chari and H. Wagner	
The Shikimate Pathway	59
H. G. Floss	
An Introduction to the Enzymology of Phenylpropanoid Biosynthesis	91
K. R. Hanson and E. A. Havir	
Recent Work on Cinnamoyl CoA Derivatives	139
M. H. Zenk	
Recent Advances in the Chemistry and Biochemistry of Lignin	177
G. G. Gross	
Selected Topics in Flavonoid Biosynthesis	221
H. Grisebach	

8. Biochemistry of the Coumarins	249
S. A. Brown	
9. Recent Advances in the Chemistry and Biochemistry of Quinone Pigments	287
R. H. Thompson	
10. Biosynthesis of Gossypol	313
P. Heinsteins, R. Widmaier, P. Wegner, and J. Howe	
11. Metabolism and Degradation of Phenolic Compounds in Plants	339
W. Barz and W. Hoesel	
12. Metabolism of the Aromatic Amino Acids by Fungi	371
C.-K. Wat and G. H. N. Towers	
13. Oxidases in Aromatic Metabolism	433
V. S. Butt	
14. Variation in and Functional Significance of Phenolic Conjugation in Plants	457
J. B. Harborne	
15. Vegetable Tannins	475
E. Haslam	
16. The Physiology of Phenolic Compounds in Plants	525
J. W. McClure	

17. Phenolic Substances and Plant Disease	557
J. Friend	
18. Phenolic Compounds in Plants of Pharmaceutical Interest	589
H. Wagner	
19. Phenolics in the Environment	617
T. Swain	
Index	641
