

CONTENIDO

Introducción, 9

1. La jojoba en Baja California Norte, Gobierno del Estado de B. C. Norte, 11
2. Avances de la investigación sobre la jojoba en el Estado de Baja California Sur, Heriberto Parra H. y Jorge Sepúlveda B., 25
3. La jojoba en Sonora, Xicoténcatl Murrieta S. 31
4. Phenology of some native jojoba populations in Arizona, Edward F. Haase 39
5. La jojoba bajo cultivo: avances preliminares en su manejo y comportamiento, Marcelo de la Vega, 49
6. Profundidad de siembra de la semilla de jojoba en relación al desarrollo de plantas en condiciones de vivero, Jorge Sepúlveda B., 61
7. Mechanical harvesting of jojoba, D. M. Yermanos, 67
8. Recent development in Jojoba in Israel 71
- Initial response of Jojoba to various environmental and cultivation condition, M. Forti, 73
- Vegetative propagation of Jojoba by conventional methods: hormone effect and seasonal variation, R. Abramovich, M. Tal and M. Forti, 84
- Selection and improvement of Simmondsia, R. Abramovich, M. Tal and M. Forti, 89
- Preliminary studies on propagation of Simmondsia chinensis by tissue culture, Elliot Birnbau, 91
- Trends in Jojoba domestication in Israel, M. Forti, 95
9. Derivados de jojoba como plastificantes en cloruro de polivinilo, M. Aregullín, V. González y J. García, 97
10. Estudio calorimétrico del comportamiento térmico de la cera de jojoba, V. González, M. Aregullín y J. García, 103
11. Quantitative and qualitative characteristics of Jojoba seed obtained from the Aguanga (California) population, D. M. Yermanos and C. D. Duncan, 113
12. Single seen analysis of Jojoba. Techniques and observations, D. M. Yermanos and C. C. Duncan, 123
13. A description of Jojoba seed anatomy and the use of cotyledon wax during germination, Thomas L. Rost, A. Daniel Simper, Pamela Schel and Stanton Allen, 135

14. Floral and fruit anatomy of Jojoba, **Rudolf Schmid**, 143
15. Test result on safety on jojoba oil to be used for cosmetics, **M. Masayuki Taguchi**, 149
16. Comparison of sperm-whale oil and Jojoba wax, **R. J. Hamilton and Tan Boon Keng**, 171
17. Separation and structure determination of Jojoba oil components by high-pressure liquid chromatography and gas gas chromatography / mass spectrometry, **Thomas Miwa, Gayland F. Spencer and Ronald D. Plattner**, 189
18. Crystallographic study of hydrogenated Jojoba wax and its relationship to polyethylene, **T. D. Simpson and T. K. Miwa**, 199
19. Correlation between density and oil contents in Jojoba nuts harvested at different geographical regions, **Thomas K. Miwa**, 219
20. Composition of Jojoba oil from nuts harvested at different geographical regions, **Thomas K. Miwa and Gayland F. Spencer**, 229
21. Physical and chemical properties of Jojoba liquid and solid waxes, **Thomas K. Miwa and James W. Hagemann**, 245
22. Sulfurized Jojoba oil as extreme-pressure lubricant, **Thomas K. Miwa and John A. Rothfus** 253
23. Hardness test for wax formulations from Jojoba wax, paraffin, polyethylene and polypropylene, **Thomas K. Miwa**, 265
24. Costeo preliminar de la jojoba en un cultivo domesticado, **Xicoténcatl Murrieta S.**, 275
25. Jojoba oil as an antifoam agent in antibiotic fermentation, **S. G. Pathak, R. F. de Phillips, R. M. Kerwin, L. L. Hepler, W. Tien and H. E. Alburn**, 285
26. Sulfurization of Jojoba, **Jaime Wisniak and Hanoch Benajahu**, 291
27. Estimated Jojoba cost-1976, **Thomas M. Stubblefield and N. Gene Wright**, 311
28. **Comunicado**, 323
29. **Resolution**, 325
30. **Conclusiones**, 327
31. **Conclusions**, 331
32. **Recomendaciones**, 334
33. **Recommendations**, 337
