

CONTENTS

Seed Research-Past,Present and Future	1
M. Black	
Use of Transgenic Plants for Studies of Seed-Specific Gene Expression	7
P.A. Lessard, R.D. Allen, F. Bernier and R.N. Beachy	
Impact of Simulated Drought Stress on Protein Body Cycle in Radicles of Developing and Germinating Cotton Seeds	19
E.L. Vigil	
Synthetic Seed for Clonal Production of Crop Plants	29
D.J. Gray	
Synthesis of Acid-Soluble,ABA-Inducible Proteins in Wheat Embryos from Dormant Grain	47
M. Walker-Simmons, K.E. Crane and S. Yao	
Hormones, Genetic Mutants and Seed Development	57
J.D. Smith, F. Fong, C. W. Magill, B.G. Cobb and D.G.Bai	
Membrane Behavior in Drought and Its Physiological Significance	71
F.A. Hoekstra, J.H. Crowe and L.M. Crowe	
The Basis of Recalcitrant Seed Behaviour: Cell Biology of the Homoiohydrous Seed Condition ...	89
P. Berjak, J.M. Farrant and N.W. Pammenter	
Phytin Synthesis and Deposition	109
J.S. Greenwood	
Calcium-Regulated Metabolism in Seed Germination	127
S.J. Roux	
Transport and Targeting of Proteins to Protein Storage Vacuoles (Protein Bodies) in Developing Seeds	139
M.J. Chrispeels and B.W. Tague	

Biochemical Adaptations to Anoxia in Rice and <u>Echinochloa</u> Seeds	151
R.A. Kennedy, T.C. Fox, L.D. Dybiec and M.E. Rumpho	
Some Aspects of Metabolic Regulation of Seed Germination and Dormancy	165
D. Côme and F. Corbineau	
Phytochrome and Sensitization in Germination Control	181
W. VanDerWoude	
The Role of Light and Nitrate in Seed Germination	191
H.W.M. Hilhorst and C.M. Karssen	
Water-Impermeable Seed Coverings as Barriers to Germination	207
G.H. Egley	
Control of Germination and Early Development in Parasitic Angiosperms	225
M.P. Timko, C.S. Florea and J.L. Riopel	
Factors Eliciting the Germination of Photoblastic Kalanchoe Seeds	241
J.A. De Greef, H. Fredericq, R. Rethy, A. Dedonder, E. De Petter and L. Van Wiemeersch	
Factors Influencing the Efficacy of Dormancy- Breaking Chemicals	261
M.A. Cohn	
Physiological Mechanisms Involved in Seed Priming	269
C.M. Karssen, A. Haigh, P. van der Toorn and R. Weges	
Germination Research Towards the Nineties: A Summary and Prognosis	281
A. M. Mayer	
Index	289
