

Contents

Section I Angiosperm Trees

I.1 Avocado (*Persea* spp.)

K. G. M. SKENE and M. BARLASS (With 1 Figure)

1 Introduction	3
2 In Vitro Approaches	5
3 Conclusions and Prospects	9
References	11

I.2 Pineapple (*Ananas comosus* L. Merr.)

K. WAKASA (With 4 Figures)

1 Introduction	13
2 Methodology	14
3 Stem Tip Culture	15
4 Plant Regeneration	18
5 Genetic Variability	19
6 Considerations and Perspective	26
References	29

I.3 Crabapple (*Malus* spp.)

S. SINGHA (With 6 Figures)

1 Introduction	30
2 In Vitro Culture of Crabapple	31
3 Conclusions and Prospects	39
References	40

I.4 Quince (*Cydonia oblonga* Mill.)

M. DURON, L. DECOURTYE, and Ph. DRUART (With 4 Figures)

1 Introduction	42
2 In Vitro Approaches	47
3 Conclusion	57
References	58

I.5 Carambola (*Averrhoa carambola* L.)

R. E. LITZ and J. L. GRIFFIS (With 3 Figures)

1 Introduction	59
2 Diseases	60
3 Conventional Practices for Propagation and Breeding	61
4 Need to Incorporate Unconventional Methods	62
5 In Vitro Approaches	63
6 Conclusion and Prospects	65
References	66

I.6 Pistachio (*Pistacia vera* L.)

M. BARGHCHI and P. G. ALDERSON (With 12 Figures)

1 Introduction	68
2 In Vitro Approaches	76
3 Conclusions and Prospects	94
References	94

I.7 Walnut (*Juglans* spp.)

R. RODRIGUEZ, A. REVILLA, M. ALBUERNE, and C. PEREZ
(With 10 Figures)

1 Introduction	99
2 In Vitro Approaches	103
3 Conclusions and Prospects	121
References	123

I.8 Hazelnut (*Corylus avellana* L.)

R. RODRIGUEZ, A. RODRIGUEZ, A. GONZALEZ, and C. PEREZ
(With 13 Figures)

1 Introduction	127
2 In Vitro Approaches	132
3 Conclusions and Prospects	156
References	157

I.9 Date Palm (*Phoenix dactylifera* L.)

R. L. BRANTON and J. BLAKE (With 4 Figures)

1 Introduction	161
2 In Vitro Approaches	165
3 Conclusions	173
References	174

I.10 Oil Palm (*Elaeis guineensis* Jacq.)

L. H. JONES and W. A. HUGHES (With 11 Figures)

1 Introduction	176
2 In Vitro Approaches	182

3 Conclusions and Prospects	199
References	200
I.11 Cacao (<i>Theobroma cacao</i> L.)	
V.C. PENCE (With 6 Figures)	
1 General Account	203
2 In Vitro Approaches	206
3 Protocols	217
4 Conclusions and Prospects	218
References	219
I.12 Rubber (<i>Hevea brasiliensis</i> Müll. Arg.)	
M.-P. CARRON, F. ENJALRIC, L. LARDET, and A. DESCHAMPS	
(With 17 Figures)	
1 Introduction	222
2 In Vitro Approaches	228
3 Discussion	241
References	243
I.13 Maple (<i>Acer</i> spp.)	
M.F. MORSELEI (With 6 Figures)	
1 Introduction	246
2 In Vitro Approaches	256
3 Conclusions and Prospects	273
References	274
I.14 Sweetgum (<i>Liquidambar styraciflua</i> L.)	
E.G. SUTTER (With 5 Figures)	
1 Introduction	287
2 In Vitro Approaches	290
3 Conclusions	297
References	298
I.15 Poplar (<i>Populus</i> spp.)	
G.C. DOUGLAS (With 9 Figures)	
1 Introduction	300
2 In Vitro Approaches	304
3 Conclusions and Prospects	317
References	319
I.16 Birch (<i>Betula</i> spp.)	
B.H. MCCOWN (With 7 Figures)	
1 Introduction	324
2 In Vitro Approaches and Species Differences	326

3 Field Responses of Micropropagated Birch	337
4 Conclusions	339
References	340

I.17 Chinese Tallow (*Sapium sebiferum* Roxb.)

S. VENKETESWARAN (With 18 Figures)

1 Introduction	342
2 In Vitro Approaches	345
3 Conclusions and Prospects	356
References	357

I.18 Empress Tree (*Paulownia tomentosa* Steud)

D.W. BURGER (With 3 Figures)

1 Introduction	359
2 In Vitro Approaches	362
3 Conclusions and Prospects	368
References	369

I.19 Willows (*Salix* spp.)

P.E. READ, S. GARTON, and T. TORMALA (With 3 Figures)

1 Introduction	370
2 In Vitro Approaches	372
3 Environmental Factors	374
4 Mutation Studies in <i>Salix</i>	378
References	385

I.20 Oaks (*Quercus* spp.)

R. BELLAROSA (With 5 Figures)

1 General Features	387
2 In Vitro Approaches	390
3 Conclusions	398
References	399

I.21 Paper Mulberry (*Broussonetia kazinoki* Sieb.)

S. OKA and K. OHYAMA (With 9 Figures)

1 Introduction	402
2 In Vitro Approaches	402
3 Plant Regeneration from Protoplast Culture	405
4 Protocol for Callus and Protoplast Culture	409
5 Conclusions and Prospects	410
References	410

I.22 Holly (*Ilex* spp.)

C. Y. HU (With 6 Figures)

1 Introduction	412
2 In Vitro Approaches	415
3 Conclusions and Prospects	425
References	426

I.23 Rhododendrons

C. R. NORTON and M. E. NORTON (With 5 Figures)

1 Introduction	428
2 In Vitro Approaches: Shoot Proliferation	429
3 Culture of Other Organs	443
4 Rooting Studies In Vitro	444
5 Callus Culture	446
6 Protoplast Isolation and Culture	448
7 Conclusions and Future Prospects	449
References	449

I.24 Some Australian Ornamental Woody Species

R. R. WILLIAMS (With 8 Figures)

1 Introduction	452
2 In Vitro Approaches	452
3 Problem of the Induction of Roots	465
4 Overview	466
References	467

I.25 Some Indian Ornamental Trees: *Cassia fistula* Linn.,
Poinciana regia (Boj.) and *Jacaranda acutifolia* auct.

Y. P. S. BAJAJ (With 5 Figures)

1 Introduction	469
2 In Vitro Approaches	471
3 Summary and Conclusions	476
References	476

Section II Gymnosperm Trees

II.1 Scots Pine (*Pinus sylvestris* L.)

M. TORIBIO and J. A. PARDOS (With 9 Figures)

1 Introduction	479
2 In Vitro Approaches	484
3 Conclusions and Prospects	501
References	502

II.2 Calabrian Pine (*Pinus brutia* Tenore)

A.A. ABDULLAH, M.M. YEOMAN, and J. GRACE

(With 4 Figures)

1 Introduction	507
2 In Vitro Approaches	509
3 Conclusions and Prospects	521
References	522

II.3 Douglas-Fir [*Pseudotsuga menziesii* (Mirb.) Franco]

B. GOLDFARB and J.B. ZAERR (With 5 Figures)

1 Introduction	526
2 In Vitro Approaches	529
3 Conclusions and Prospects	544
References	545

II.4 Redwood (*Sequoia sempervirens*)

M. BOULAY (With 5 Figures)

1 Introduction	549
2 In Vitro Approaches	553
3 Conclusions and Prospects	571
References	572

II.5 Maidenhair Tree (*Ginkgo biloba* L.)

R. ROHR (With 7 Figures)

1 Introduction	574
2 In Vitro Approaches	577
3 Conclusion	587
References	588

II.6 Cycads

D.T. WEBB and R. OSBORNE (With 15 Figures)

1 Introduction	591
2 In Vitro Approaches	595
3 Conclusions and Prospects	610
References	611

Subject Index	615
