

Contents

List of Contributors	vii
Preface	ix
1. THE CHEMICAL ECOLOGY OF CELLS IN THE SOIL	
JOHN TYLER BONNER	
I. Introduction	1
II. Unicellular Microorganisms	2
III. Multicellular Microorganisms	8
IV. Conclusion	16
References	18
2. CHEMICAL ECOLOGY AMONG LOWER PLANTS	
JOHN R. RAPER	
I. Introduction	21
II. Intraspecific Chemical Ecology — Sexuality	22

III.	Interspecific Chemical Ecology—Trapping Substances	38
IV.	Conclusion	39
	References	39
3. THE BIOCHEMICAL ECOLOGY OF HIGHER PLANTS		
R. H. WHITTAKER		
I.	Introduction	43
II.	Allelopathy—Two Cases	44
III.	Routes of Release from Plants	45
IV.	Effects on Plant Communities	49
V.	Secondary Plant Substances	53
VI.	Evolution of Wastes and Repellents	58
VII.	Conclusion	62
VIII.	Summary	65
	References	66
4. PLANTS AND THE CHEMICAL ENVIRONMENT		
F. W. WENT		
I.	Introduction	71
II.	Plant—Plant Interactions	71
III.	The Aerial Environment	78
IV.	Plant—Animal Interactions: Galls	79
	References	81

5. CHEMICAL INTERACTIONS BETWEEN PLANTS AND INSECTS

V. G. DETHIER

I.	Introduction	83
II.	Selective Pressures	84
III.	Plants as Food	87
IV.	The Chemoreceptive Systems of Insects	93
V.	The <i>Raison d'Etre</i> of Feeding Diversity	96
VI.	Conclusion	99
	References	99

6. HORMONAL INTERACTIONS BETWEEN PLANTS AND INSECTS

CARROLL M. WILLIAMS

I.	Introduction	103
II.	Genes and Metamorphosis	104
III.	Endocrine Control of Metamorphosis: Ecdysone	106
IV.	Growth without Metamorphosis	115
V.	Juvenile Hormone and the Status Quo	115
VI.	Juvenile Hormone and Embryonic Development	127
VII.	Venereal Dissemination of Juvenile Hormone	128
VIII.	Conclusion	129
	References	129

7. CHEMICAL COMMUNICATION WITHIN ANIMAL SPECIES

EDWARD O. WILSON

I.	Classification of Chemical Communication Systems	133
II.	The Chemical Channel	137
III.	The Increase in Information and Its Upper Boundary	149
	References	153

8. CHEMICAL DEFENSE AGAINST PREDATION IN ARTHROPODS

THOMAS EISNER

I.	Introduction	157
II.	Types of Chemical Defenses	159
III.	Chemistry and Effectiveness of Defensive Substances	175
	References	210

9. CHEMICAL ECOLOGY OF FISH

ARTHUR D. HASLER

I.	Introduction	219
II.	The Chemistry of the Swimbladder	221
III.	Sex Hormones	223
IV.	Ecology of Olfaction	223
V.	Oxygen and Carbon Dioxide	224
VI.	Temperature	226
VII.	Effect of Changing the Chemical Environment Synthetically	228
VIII.	Analysis of Ecosystems	230
	References	232

10. THE CHEMISTRY OF NONHORMONAL INTERACTIONS: TERPENOID COMPOUNDS IN ECOLOGY

RAYMOND B. CLAYTON

I.	Introduction	235
II.	Chemical Ecology of Terpenoids and Steroids	236
III.	Conclusion	272
	References	275

11. CHEMICAL ASPECTS OF HORMONAL INTERACTIONS

JOHN B. SIDDALL

I.	Introduction	281
II.	Juvenile Hormones	282
III.	Steroid Molting Hormones	292
	References	303
	Author Index	307
	Subject Index	323
