

TABLE OF CONTENTS

vii	Preface
-----	---------

DISEASES

1	Algal leaf spot - G. W. Simone
2	Annellophora leaf spot - G. W. Simone
2	Anthracnose (Colletotrichum leaf spot) - A. R. Chase
3	Bacterial bud rot - G. W. Simone
5	Bipolaris, Exserohilum, and Phaeotrichoconis leaf spots - M. Aragaki, A. R. Chase and J. Uchida
7	Calonectria leaf spot (Cylindrocladium leaf spot) - M. Aragaki and J. Uchida
8	Catacauma leaf spot (Tar spot) - G. W. Simone
10	Damping-off - A. R. Chase
10	Diamond scale - H. D. Ohr
11	Fusarium wilt - H. D. Ohr
12	Ganoderma butt rot (Basal stem rot) - G. W. Simone
14	Graphiola leaf spot (False smut) - G. W. Simone
16	Lethal yellowing disease (Awka disease, Cape St. Paul wilt, Kaincope disease, Kribi disease, and Pudricion del Cogollo) - G. W. Simone
20	Mosaic - G. W. Simone
20	Pestalotiopsis leaf spot - G. W. Simone
21	Phytophthora diseases - M. Aragaki, G. W. Simone and J. Uchida
24	Pink rot (Gliocladium blight) - H. D. Ohr
26	Pseudocercospora and Cercospora leaf spots - M. Aragaki and J. Uchida
27	Pseudomonas blight - A. R. Chase
28	Rachis blight - H. D. Ohr
29	Sclerotinia blight - A. R. Chase
29	Stigmina leaf spot (Exosporium leaf spot) - G. W. Simone
30	Thielaviopsis bud rot (Stem bleeding, Bitten leaf, Black scorch, Dry basal rot, Heart rot) - G. W. Simone

PHYSIOLOGICAL DISORDERS

	- T. K. Broschat
33	Albinism
33	Boron deficiency
34	Boron toxicity
34	Calcium deficiency
34	Chlorine deficiency
35	Cold injury
36	Copper deficiency
36	Copper toxicity
37	Excessive water uptake
37	Fluoride toxicity
38	Foliar salt injury
38	Hapaxanthic flowering
38	Herbicide toxicity
40	High soil soluble salts
40	Iron deficiency
41	Lightning injury
41	Magnesium deficiency
42	Manganese deficiency
43	Nitrogen deficiency
43	Phosphorus deficiency

44	Potassium deficiency
46	Powerline decline
46	Root suffocation
47	Sulfur deficiency
47	Sunburn
48	Water stress
48	Zinc deficiency

APPENDICES

49	Appendix 1. Chu medium No. 10 for culturing <i>Cephaleuros</i>
49	Appendix 2. Palm taxa reported as hosts of <i>Bipolaris</i> spp.
49	Appendix 3. Palm taxa reported as hosts of <i>Exserohilum rostratum</i> or <i>Phaeotrichoconis crotalariae</i>
50	Appendix 4. Palm taxa known to be hosts of <i>Ganoderma zonatum</i> , <i>Graphiola phoenicis</i> , or <i>Pestalotiopsis palmara</i>
51	Appendix 5. Susceptibility of palm taxa to Lethal Yellowing Disease
52	Appendix 6. Antibiotic injection methods for control of Lethal Yellowing Disease
52	Appendix 7. Palm taxa reported as hosts of <i>Phytophthora palmivora</i>
52	Appendix 8. Some amendments to corn meal agar used to isolate <i>Phytophthora</i> spp.
53	Appendix 9. Palm taxa known to be hosts of <i>Stigmina palmivora</i>
53	Appendix 10. Critical concentrations of 13 elements in <i>Chamaedorea elegans</i> , <i>C. erumpens</i> and <i>Chrysalidocarpus lutescens</i>
54	Appendix 11. Critical concentrations of 13 elements in <i>Howea forsterana</i> and <i>Rhapis excelsa</i>
54	Appendix 12. Critical concentrations of 13 elements in <i>Elaeis guineensis</i>
55	Appendix 13. Common names of some palm taxa
