Preface xi

Acknowledgments xiii

Part I. Background to Agaves

1. The Man-Agave Symbiosis 3

The Historical Perspective 3 Agave as Food 5 The Beverages of
Agaves 8 Agave Fibers 16 Agave as a Paper Source 20
Medicinal and Miscellaneous Uses 21 The Native Names of Agaves 23
Summary of the Symbiosis 24

2. Taxonomic History and Morphology 25

Agave Collectors 25 Agave Taxonomists 27 Characters of Agave 30
Methods for Preparing Herbarium Specimens 47

3. Geographic Guide to Species and the Exsiccatae 49

Synopsis of Agaves in Arizona 50 Synopsis of Agaves in Central
Mexico 51 Synopsis of Agaves in the Chihuahuan Desert 53 Synopsis
of Agaves in the Jaliscan Plateau Region 55 Synopsis of Agaves
in Texas 56 Catalogue of Specimens or the Exsiccatae 57
Abbreviations 57 List of Agave States by Countries 58

Part II. Systematic Account of Genus and Species:
Subgenus *Littaea*

Key to Groups of Subgenus *Littaea* 61 Sectional List of Species 62

4. Group *Amolae* 63
5. Group *Choritepalae* 89
6. Group *Filiferae* 101
7. Group *Marginatae* 124
8. Group *Parviflorae* 195
9. Group *Polycephalae* 216
10. Group *Striatae* 235
11. Group *Urceolatae* 251

Part III. Systematic Account of Genus and Species:
Subgenus *Agave*

Key to Groups of Subgenus *Agave* 267 Sectional List of Species 269

12. Group *Americanae* 270
13. Group *Campaniflorae* 309
14. Group *Crenatae* 323
15. Group *Deserticolae* 354
16. Group *Ditepalae* 416
17. Group *Hiemiflorae* 465
18. Group *Marmoratae* 507
19. Group *Parryanae* 520
20. Group *Rigidae* 551
21. Group *Salmianae* 594
22. Group *Sisalanae* 619
23. Group *Umbelliflorae* 635

Part IV. Culture of Agaves and Other Addenda

Culture of Agaves 651

References 653

Glossary of Special Terms 659

Index 663

Tables

- | | |
|---|---|
| 1.1 Amino Acids of Pulque 13 | 13.5 <i>Agave promontorii</i> : sapogenin content 319 |
| 1.2 Composition of Aguamiel, Tlachique, and Pulque 13 | 14.1 Crenatae: sapogenin content 327 |
| 1.3 Estimated Production of Henequen Fiber 19 | 14.2 Crenatae: flower measurements 328 |
| 1.4 Estimated World Production of Sisal Fiber 19 | 15.1 Deserticolae: flower measurements 358 |
| 1.5 Estimated 1963 World Output of Hard Fibers 20 | 15.2 <i>Agave cerulata</i> : sapogenin content 370 |
| 1.6 Relative Productions of Fiber, Liquor, and Sapogenins on One Hectare 22 | 15.3 <i>Agave deserti</i> : sapogenin content 382 |
| 4.1 Amolae: sapogenin content 65 | 15.4 <i>Agave sobria</i> : sapogenin content 400 |
| 4.2 Amolae: flower measurements 69 | 16.1 Ditepalae: stomata counts 417 |
| 5.1 Choritepalae: flower measurements 91 | 16.2 Ditepalae: sapogenin content 420 |
| 6.1 Filiferae: flower measurements 106 | 16.3 Ditepalae: flower measurements 428 |
| 7.1 Marginatae: flower measurements 132 | 17.1 Hiemiflorae: flower measurements 474 |
| 7.2 Marginatae: sapogenin content 136 | 18.1 Marmoratae: flower measurements 510 |
| 8.1 Parviflorae: flower measurements 198 | 19.1 Parryanae: sapogenin content 524 |
| 8.2 Parviflorae: sapogenin content 199 | 19.2 Parryanae: flower measurements 524 |
| 9.1 Polycephalae: flower measurements 218 | 20.1 Rigidiae: flower measurements 554 |
| 10.1 Striatae: flower measurements 237 | 20.2 Tequila production in Jalisco, 1963-68 584 |
| 11.1 Urceolatae: flower measurements 254 | 21.1 Salmianae: flower measurements 602 |
| 12.1 Americanae: flower measurements 274 | 22.1 Sisalanae: flower measurements 625 |
| 13.1 Campaniflorae: flower measurements 311 | 22.2 Estimated 1965 world output of hard fibers 630 |
| 13.2 Fiber ratings of <i>Agave aurea</i> and <i>A. promontorii</i> , as compared to henequen, <i>A. fourcroydes</i> 313 | 23.1 Umbelliflorae: flower measurements 638 |
| 13.3 <i>Agave aurea</i> : sapogenin content 315 | 23.2 <i>Agave shawii</i> : sapogenin content 639 |
| 13.4 <i>Agave capensis</i> : sapogenin content 316 | |
