List of Acronyms	viii
Summary of Discussions and Recommendations	1
Identification of Genetic Diversity in the Genus <i>Musa</i> : A General Introduction <i>E.A. De Langhe</i>	8
Banana Thesaurus: Specialized Controlled Vocabulary for Information Retrieval <i>Nitzia Barrantes</i>	17
Identification de la Diversité Génétique pour le Genre <i>Musa</i> <i>J. Champion</i>	26
The Cavendish Subgroup: Distinct and Less Distinct Cultivars <i>J.W. Daniells</i>	29
Electrophoretic Analysis of Selected Isozymes in BB-Cultivars of Philippine Bananas <i>A.R.C. Espino and R.B. Pimentel</i>	36
An Evolutionary Background of Bananas as Deduced from Flavonoids Diversification <i>J.P. Horry and M. Jay</i>	41
Molecular Methods for Detecting Genetic Diversity in <i>Musa</i> <i>R.L. Jarret</i>	56
A Tentative Key to Philippine Bananas <i>O.C. Pascua</i>	67
MUSAID: A Computerized Determination System <i>X. Perrier and H. Tezenas du Montcel</i>	76
A Cytological Survey of Philippine Bananas <i>D.A. Ramirez</i>	92

Methods for Detecting Somaclonal Variants in 'Williams' Bananas <i>D. Reuveni</i>	108
New Genetic Combinations in Breeding Bananas and Plantains Resistant to Diseases <i>P.R. Rowe</i>	114
Principaux Caractères de Détermination dans la Caractérisation Morphologique des Bananiers Triploïdes Acuminata d'Afrique de l'Est <i>K. Sebasigari</i>	124
Collecting <i>Musa</i> in Papua New Guinea <i>S. Sharrock</i>	140
Observations on <i>Musa</i> Taxonomy A Note on <i>Musa</i> Germplasm of the Philippines <i>K. Shepherd</i>	158
Banana Germplasm Collection and Research in Thailand <i>B. Silayoi</i>	166
Limits of Morphotaxonomy: Names and Synonyms of Plantain in Africa and Elsewhere <i>R. Swennen</i>	172
<i>Musa Acuminata</i> Subspecies <i>Banksii</i>: Status and Diversity <i>H. Tezenas du Montcel</i>	211
