PREFACE

Section 1 Highlights in U.S. Agriculture and Food Chemistry 1

- 1 Introduction 3
- 2 Appraisal For the 1976 American Chemical Society Centennial 5
- 3 Contributions of USDA in Production Research 10
- 4 Agricultural Utilization Research 25
- 5 Contributions of USDA in Nutrition and Food Research 35
- 6 Food Science and Technology: Past, Present, and Future—The 1976 W. O. Atwater Memorial Lecture 46

Section 2 Plant Production 59

- 7 Introduction 61
- 8 One Hundred Years of Plant Breeding 63
- 9 Utilizing Disease and Insect Resistance in North American Crop Plants 77
- 10 Plant Breeding Contributions to Food Production in Developing Countries 90

Section 3 Animal Production 101

- 11 Introduction 103
- 12 Cattle and Chemistry: An Effective Partnership 105

13	A Century of Progress in Dairy Cattle Production in the United States: 1876 to 1976	120
14	One Hundred Years of Chemicals in the Poultry Industry	136
15	A Century of Progress in Swine Production	158
16	One Hundred Years of Progress in Sheep and Goat Production	173
	Section 4 Challenges of Food Processing and Flavor: Past, Present, and Future	189
17	Introduction	191
18	Food Ingredient Challenges	192
19	Challenges in Food Product and Process Development	203
20	Energy and Food Processing	211
21	Food Additives and Their Regulation	222
22	Plant Protein Foods—Their Development, Their Future	234
23	Food Preservation—Retrospect and Prospect	246
24	Food Acceptance	256
25	Natural Food Colorants	260
26	Chemical and Physical Methods to Isolate and Identify Food Flavors	280
27	Challenges in Meat Flavor Research	292
28	Flavor Chemistry of Tea, Cocoa and Coffee	315
29	Flavor Chemistry of Fruits and Vegetables	333
	Section 5 Nutrition	349
30	Introduction	351
31	The Newer Knowledge of Animal Nutrition: The Road Ahead	352
32	Food Additives and Nutrition	367
33	Fiber—The Forgotten Nutrient	370
34	Expanding Role of Nutrition in Clinical Medicine	387

Section 6 Food Safety 403

35	Introduction	405
36	Food Industry Concerns with Food Safety	407
37	A Centennial Look at Food Regulation	415
38	Protection Against Biological and Chemical Hazards in Our Food Supply	426
39	Evaluating Food Additives—The GRAS List	439
	INDEX	455
