<i>Preface</i>	v
<i>Acknowledgements</i>	vii
<b>CHAPTER 1 INTRODUCTION</b>	1
1 General considerations	1
2 The Phanerozoic time scale	4
3 Brief history of the concept of evolution	5
4 Physical factors limiting animal dispersal etc.	10
5 Environmental change and natural selection	15
<b>CHAPTER 2 A BRIEF HISTORY OF HISTORICAL CLIMATOLOGY</b>	17
1 General introduction	17
2 The Lagrange-Croll-Milankovič theories	19
3 Elsworth Huntington and the pulse of Asia	23
4 Abbot and volcanism	27
5 Brooks and British meteorologists	29
<b>CHAPTER 3 MORE RECENT KNOWLEDGE OF CLIMATIC CHANGE</b>	35
1 The climate of the 1960s and 1970s	35
2 Periodicities of climate	43
3 The Camp Century ice cores	53
4 Climatic data from historic time	57

## CHAPTER 4 GEOMAGNETIC CONSIDERATION

62

- 1 The earth's magnetic field 62
- 2 Magnetic disturbances 66
- 3 The atmospheric dynamo 69
- 4 The upper atmosphere 71
- 5 Magnetic effects and climate 73
- 6 The magnetisation of rocks 81
- 7 Variations in atmospheric  $^{14}\text{C}$  content 93

## CHAPTER 5 LONG-TERM CONSIDERATIONS

98

- 1 Ancient ice ages 98
- 2 Possible galactic causes of periodic glaciations 100
- 3 Continental drift 105
- 4 Periodic vulcanism and tectonism 108
- 5 Volcanic eruptions and climate 112

## CHAPTER 6 THE PALEOZOIC ERA

115

- 1 Introduction 115
- 2 Continental dispositions 117
- 3 Paleoclimatic considerations 119
- 4 Paleozoic extinctions 124

## CHAPTER 7 THE MESOZOIC ERA

135

- 1 Introduction 135
- 2 Continental drift 138
- 3 Climatic periodicity 140
- 4 Geomagnetic determinations 142
- 5 Paleotemperature data 144
- 6 Mesozoic climates 149
- 7 Some faunal considerations 154

## CHAPTER 8 THE TERTIARY PERIOD

159

- 1 Introduction 159
- 2 Tertiary floras 160
- 3 Theoretical considerations of climate 165
- 4 Isotope data on Tertiary marine paleotemperatures 168
- 5 Neogene planktonic biostratigraphy 173

## CHAPTER 9 THE QUATERNARY SUCCESSION

177

- 1 Introduction 177
- 2 The period involved 177

- 3 The United Kingdom succession 184
- 4 Sea-level variations 187
- 5 The last glaciation 189

## CHAPTER 10 LATE WEICHSELIAN AND FLANDRIAN TIME

196

- 1 Introduction 196
- 2 The late Weichselian period 198
- 3 The Flandrian period 200
- 4  $^{14}\text{C}$  age determination 202
- 5 Climate during the Flandrian period 206
- 6 Radiocarbon variations in the atmosphere 208

## CHAPTER 11 CLIMATE AND HISTORY

211

- 1 Introduction 211
- 2 Nomadic incursions 213
- 3 Chinese history 220
- 4 North and Central America 224
- 5 British history 227
