

CONTENTS

<i>Preface</i>	vii
<i>Foreword</i> B.M.F. Pearse	ix
<i>List of contributors</i>	xi
1 Coated vesicles: a morphologically distinct subclass of endocytic vesicles A.E. Wild	1
2 Coated vesicles in different cell types: some functional implications A.J. Nevorotin	25
3 Coated vesicles: their occurrence in different plant cell types E.H. Newcomb	55
4 Immunoglobulin transmission in mammalian young and the involvement of coated vesicles R. Rodewald	69
5 Coated vesicles in neurons A.L. Blitz & R.E. Fine	103
6 Coated vesicles in the oocyte F. Giorgi	135
7 Adsorptive and passive pinocytic uptake M.K. Pratten, R. Duncan & J.B. Lloyd	179
8 Coated vesicles and receptor biology A. Rees & K. Wallace	219
9 Coated secretory vesicles J. Kartenbeck	243
10 Dynamic aspects of coated vesicle function C.D. Ockleford & E.A. Munn	255
11 Structural aspects of coated vesicles at the molecular level A. Whyte & C.D. Ockleford	283
12 Coated vesicles in medical science F. Beck	303
<i>Appendix 1. Nomenclature</i>	319
<i>Appendix 2. References added at proof</i>	321
<i>Author index</i>	326
<i>Subject index</i>	334
