Acknowledgements	v
Foreword	vi
Introduction	
Opening remarks	1
<i>G. Fischbeck</i>	
Home gardens—a genetic resources perspective	3
<i>J. Engels</i>	
Home gardens agrobiodiversity: an overview across regions	10
<i>P.B. Eyzaguirre and J. Watson</i>	
Technical contributions	
Home gardens and the maintenance of genetic diversity	14
<i>T. Hodgkin</i>	
Documentation of plant genetic resources in home gardens	19
<i>H. Knüpfner</i>	
Contributions of home gardens to our knowledge on cultivated plant species: the Mansfeld approach	27
<i>K. Hammer</i>	
Characterizing genetic diversity of home garden crop species: some examples from the Americas	34
<i>M. Hoogendijk and D. Williams</i>	
Contributions of home gardens agrobiodiversity to development, nutrition and livelihoods	41
<i>P.B. Eyzaguirre and M. Fernandez</i>	
Project reports	
Contribution of home gardens to <i>in situ</i> conservation of plant genetic resources in farming systems—Cuban component	42
<i>L. Castiñeiras, Z. Fundora Mayor, T. Shagarodsky, V. Moreno, O. Barrios, L. Fernández and R. Cristóbal</i>	
Contribution of home gardens to <i>in situ</i> conservation in traditional farming systems—Guatemalan component	56
<i>J. M. Leiva, C. Azurdia, W. Ovando, E. López and H. Ayala</i>	
Home gardens and <i>in situ</i> conservation of agrobiodiversity—Venezuelan component	73
<i>C. Quiroz, M. Gutiérrez, D. Rodríguez, D. Pérez, J. Ynfante, J. Gámez, T. Pérez de Fernandez, A. Marques and W. Pacheco</i>	
Contribution of home gardens to <i>in situ</i> conservation of plant genetic resources in farming systems in Ghana	83
<i>S.O. Bennett-Lartey, G.S. Ayernor, C.M. Markwei, I.K. Asante, D.K. Abbiw, S.K. Boateng, V. M. Anchirinah and P. Ekpe</i>	
Role of home gardens in the conservation of plant genetic resources in Vietnam	97
<i>L.N. Trinh, N.T.N. Hue, N.N. De, N. V. Minh and P.T. Chu</i>	

Case studies

- Home gardens in Nepal: status and scope for research and development 105
P. Shrestha, R. Gautam, R.B. Rana and B. Sthapit
- Home gardens in Ethiopia: some observations and generalizations 125
Z. Asfaw
- Home gardens in the Upper Citarum Watershed, West Java: a challenge for *in situ* conservation of plant genetic resources 140
O.S. Abdoellah, Parikesit, B. Gunawan and H.Y. Hadikusumah

Working group reports

- Plant genetic resources conservation in home gardens: ecosystems and key species 148
Group A
- In situ* conservation strategies for home gardens as components 151
of complementary conservation and use strategies for plant genetic resources
Group B
- Documentation and measurement of genetic diversity in home gardens 155
Group C
- Mainstreaming contributions from the project: follow-up actions and priorities for future work on managing home gardens' agrobiodiversity for development
- Group A* 156
- Group B* 158
- Group C* 161

Poster presentations

- Temperate home gardens of small alpine farmers in Eastern Tyrol (Austria): their value for maintaining and enhancing biodiversity 163
B. Vogl-Lukasser and C R. Vogl
- Mansfeld's Encyclopedia and Database on Agricultural and Horticultural Crops 165
J. Ochsmann, H. Knüpfper, N. Biermann and K. Bachmann
- The home garden database and information system—technical aspects 168
V. Afanasyev, J. Ochsmann and H. Knüpfper
- Home gardens in Kerala as an efficient agroecosystem for conservation and sustainable management of biodiversity 169
K. Pushkaran
- Ethnobotany of genetic resources in Germany—diversity in city gardens of immigrants 171
Th. Gladis

Summary and recommendations

- Conclusions 175
P.B. Eyzaguirre
