

CONTENTS

Prologue, 9

Preface, 16

ECOLOGY AND TAXONOMY

1. **The Ecology of Renewable Resources in Arid Land Lands, with Emphasis on *Larrea***, W. Frank Blair, 19
2. **The Position of *Larrea* in the *Zygophyllaceae***, Duncan M. Porter, 27
3. **Taxonomy and Geographic Distribution of the Genus *Larrea* Cav. (*Zygophyllaceae*)**, Ramón A. Palacios, 44
4. **Evolutionary Relationship of the Species of *Larrea***, Juan H. Hunziker, 49
5. **Small Mammals and Creosote Bush: Patterns of Richness**, Michael A. Mares, 57
6. **Effects of *Larrea* on the Local Distribution of Small Mammals**, W. Frank Blair, 95
7. **Asymptotic Species Richness Models and the Insect Faunas of *Larrea***, John C. Schultz, 101
8. **Possibilities for Biological Control of *Larrea***, C. J. DeLoach, 127

PRODUCTIVITY PATTERNS AND PHOTOSYNTHESIS

9. **Productivity Patterns of *Larrea* in the Northern Chihuahuan Desert**, John A. Ludwig and Paul Flavill, 139
10. **Non-Positive Cell Pressure Potentials (Turgor Pressures) in the Creosote Bush, *Larrea tridentata* Cav. and the implications for Growth and Productivity**, W. R. Odening, W. C. Oechel and B. R. Strain, 151
11. **Modeling Net Photosynthesis of *Larrea tridentata* (DC.) Cav.**, G. L. Cunningham, J. F. Reynolds and J. P. Syvertsen, 165
12. **Modeling Primary Production in *Larrea tridentata* (DC.) Cav.**, James F. Reynolds and Gary L. Cunningham, 181

CHEMISTRY AND POTENTIAL USES

13. *Larrea*: A Chemical Resource, Tom J. Mabry and Charles F. Bohnstedt, 217
14. *Larrea*: Potential Uses, Barbara Timmermann, 237
15. Research and Development of *Larrea tridentata* as a Source of Raw Materials, Héctor Belmares S., Arnoldo Barrera F., Félix Hernández and L. Francisco Ramos del Valle, 247
16. Antioxidant Activity of *Larrea* on Natural and Synthetic Rubbers, Marco A. Ponce Vélez and Virgilio González G., 277
17. Creosote Bush Resin: A Possible Dormancy Breaking Agent, Rodolfo Garza G. and Ma. del Rosario Quezada, 305
18. Possible Amebicidal Activity of *Larrea*, José Juan Segura and Carlota C. Calzada Flores, 317
19. Fungitoxic Compounds of Creosote Bush Resin, Salvador Fernández T., Luz Ma. Hurtado and Félix Hernández B., 327
20. Curative Fungicides Field Evaluation, Florencio Jiménez D. and Pablo Valle G., 343
21. Comparison of Two Creosote Bush Resin Extraction Systems, Raúl Guillermo López C. and Fidel de la Cruz M., 349
22. Advances in the Extraction Technology of *Larrea tridentata*, Héctor Martínez, M. Elena Navarro and Crispín García, 369
23. Multi-Use Oil and Hydrocarbon-Producing Crops in Adaptive Systems for Food, Material and Energy Production, Russell A. Buchanan and Félix H. Otey, 381

Contributors, 405
