

Contents

Preface	iii
Contributors	v
1. Controlled Release: Status and Future Prospects <i>S. Kumar Chandrasekaran, Rose M. Wright, and M. James Yuen</i>	1
2. Liposomes: Possible Potential in Drug Delivery <i>Brenda E. Ryman</i>	27
3. Controlled Release of Drugs: Prodrug Performance in Target Tissues <i>William I. Higuchi, Akira Kusai, Jeffrey L. Fox, Neal A. Gordon, Norman F. H. Ho, Chung-Chiang Hsu, Jung Y. Park, David C. Baker, and William M. Shannon</i>	43
4. Macromolecular and Modeling Aspects of Swelling- Controlled Systems <i>Richard W. Korsmeyer and Nikolaos A. Peppas</i>	77
5. Controlled Release of Norethindrone from Poly (Ortho Esters) <i>Jorge Heller, D. W. H. Penhale, Robert F. Helwing, and Bruce K. Fritzinger</i>	91
6. Controlled Release From Glycosaminoglycan Drug Complexes <i>Randall V. Sparer, Nnochiri Ekwuribe, and Alan G. Walton</i>	107
7. Zero-Order Drug Delivery Systems with Magnetic Control <i>Dean S. T. Hsieh and Robert Langer</i>	121

8. A Polymeric Controlled Release Delivery System
for Prostaglandins 133
*Charles H. Spilman, Theodore J. Roseman, Richard W.
Baker, Mark Edward Tuttle, and Harold K. Lonsdale*
9. Controlled Release of Carcinogens in Heterotopic
Tracheal Grafts 141
Bimal C. Pal and A. J. P. Klein-Szanto
10. Development of a Controlled Absorption Quinidine
Drug Delivery System 163
*O. I. Corrigan, Adrian Dunne, Hugh McLaughlin, Edward
J. Geoghegan, Chrissie A. Killian, and Donald E. Panoz*
11. Stability of Controlled Release Pharmaceutical
Microcapsules 177
Joseph A. Bakan and Thomas C. Powell
12. Antiviral Activity of an Interferon Inducer in a
Biosoluble Ophthalmic System 189
*Richard J. Harwood, Helen Carol B. Perry, and
A. Kirk Field*
13. Controlled Release of Dapsone by Intramuscular Injection 199
*E. S. M. Modderman, F. W. H. M. Merkus, J. Zuidema,
H. Huikeshoven, and D. L. Leiker*
14. Radioisotope Labeling: A Unique Technique for
Polymer Characterization 209
Albert Dorsky, Ron L. Hale, and Stephen A. de Keczer
15. A Sustained Release Ivermectin Implant for
Livestock Pest Control 223
J. Allen Miller, R. O. Drummond, and D. D. Oehler
16. Design Parameters for Controlled Release Soybean
Coatings 237
Stephen Hong-wei Wu and Clarence C. Dannelly
17. The Role of Silvex Herbicide Residues in the
Environment 259
Edward O. Gangstad
18. The Use of Controlled Release Herbicides in Waste
Burial Sites 291
*Frederick G. Burton, Dominic A. Cataldo, John F.
Cline, and W. Eugene Skiens*

19. Controlled Release for Suppression of Rice Storage
Pests 301
*Bruce L. Parker, Norman L. Gauthier, and Agis
Kydonieus*
20. Encapsulated Sumithrin: Core Concentration and
Biological Activity 315
Hiroshi Fuyama, Goro Shinjo, and Kozo Tsuji
21. Development of BioLure Controlled Release Pheromone
Products 325
*Kelly L. Smith, Yasuo Ninomiya, and Richard W.
Baker*
22. Environmental Effects on Long-Term Antifouling Systems 337
*Nadim A. Ghanem, Mounir M. Abd El-Malek, and Magdy
H. Ayoub*
23. Bioactive Polymer-Wood Composites 347
Roger M. Rowell
24. Bayluscide and Controlled Release Tin Formulations as
Molluscicides and Larvacides 359
*Pongpen Sa-Nguankul, E. S. Upatham, and
Nouwarath Sukhapanth*
25. Analyses of Volatile Model Compounds in Accurel
Porous Materials 381
Timothy D. Davis and William R. Brade
