

Table of Contents

Preface	VII
---------------	-----

Chemical signals: Hormones, Phytotoxins

Roles of ion channels in initiation of signal transduction in higher plants <i>J.M. Ward and J.I. Schroeder</i>	1
ABA signaling in plant development and growth <i>T.L. Thomas, H.-J. Chung and A.N. Nunberg</i>	23
Auxin perception and signal transduction <i>M.A. Venis and R.M. Napier</i>	45
Transduction of ethylene responses <i>M.A. Hall and A.R. Smith</i>	65
Phytotoxins as molecular signals <i>P. Aducci, A. Ballio and M. Marra</i>	83

Physical signals: Blue and red light

Blue light-activated signal transduction in higher plants <i>W.R. Briggs and E. Liscum</i>	107
The transduction of light signals by phytochrome <i>C. Bowler</i>	137

Biotic signals: Host-pathogen interactions

Perception of fungal elicitors and signal transduction <i>F. Cervone, R. Castoria, F. Leckie and G. De Lorenzo</i>	153
Subject index	179
