Foreword	..	..	..	..	..	..	v
Symposium details	..	..	..	..	..	..	vi
Contributors	..	..	..	..	..	..	vii
Preface	..	..	..	..	..	..	xi

I. Taxonomy and floristics 1

1. D'ARCY, W. G. The classification of the Solanaceae	..	..	3
2. HUNZIKER, A. T. South American Solanaceae: a synoptic survey	..	..	49
3. DEB, D. B. Solanaceae in India	..	..	87
4. GBILE, Z. O. <i>Solanum</i> in Nigeria	..	..	113
5. HAEGI, L. Australian genera of the Solanaceae	..	..	121
6. SYMON, D. E. The genus <i>Solanum</i> in Australia	..	..	125
7. HEPPER, F. N. On typifying Linnaean names of Solanaceae	..	..	131

II. Ethnobotany 135

8. SCHULTES, R. E. Solanaceous hallucinogens and their role in the development of New World cultures	..	..	137
9. MEHRA, K. L. Ethnobotany of Old World Solanaceae	..	..	161
10. PETERSON, N. Aboriginal uses of Australian Solanaceae	..	..	171

III. Alkaloids 191

11. SCHREIBER, K. The steroid alkaloids of <i>Solanum</i>	..	..	193
12. BRADLEY, V., COLLINS, D. J., EASTWOOD, F. W., IRVINE, M. C., SWAN, J. M. and SYMON, D. E. Distribution of steroidal alkaloids in Australian species of <i>Solanum</i>	..	..	203
13. MÁTHÉ, I., JR. and MÁTHÉ, I., SR. Variation in alkaloids in <i>Solanum dulcamara</i> L.	..	..	211
14. RODDICK, J. G. Distribution of steroidal glycoalkaloids in cells of <i>Solanum</i> and <i>Lycopersicon</i>	..	..	223
15. MILLER, L. M. F. and DAVIES, M. E. The characteristics of solasodine accumulation in <i>Solanum khasianum</i> C. B. Clarke var. <i>chatterjeeanum</i> Sengupta and <i>S. laciniatum</i> Ait. grown under field conditions in Birmingham	..	..	231
16. FORD, J. E., MCCANCE, D. J. and DRYSDALE, R. B. The hydrolysis of tomatine by an inducible extracellular enzyme from <i>Fusarium oxysporum</i> f.sp. <i>lycopersici</i>	..	..	237
17. EVANS, W. C. Tropane alkaloids of the Solanaceae	..	..	241

CONTENTS

IV. Flavonoids, terpenes and proteins		255
18. HARBORNE, J. B. and SWAIN, T.	Flavonoids of the Solanaceae	257
19. PARMENTIER, F.	The biosynthesis of chlorogenic acid in Solanaceae	269
20. REID, W. W.	The diterpenes of <i>Nicotiana</i> species and <i>N. tabacum</i> cultivars	273
21. STEGEMANN, H.	Characterization of proteins from potatoes, and the "Index of European Varieties"	279
22. LESTER, R. N.	The use of protein characters in the taxonomy of <i>Solanum</i> and other Solanaceae	285
V. Anatomy and fine structure		305
23. SEITHE, A.	Hair types as taxonomic characters in <i>Solanum</i>	307
24. BESSIS, J. and GUYOT, M.	An attempt to use stomatal characters in systematic and phylogenetic studies of the Solanaceae	321
25. GENTRY, J. L., JR.	Pollen morphology of the Salpiglossideae (Solanaceae)	327
26. GBILE, Z. O. and SOWUNMI, M. A.	The pollen morphology of Nigerian <i>Solanum</i> species	335
VI. Morphology and morphogenesis		343
27. CHILD, A.	A review of branching patterns in the Solanaceae	345
28. HAMMOND, H. D.	Growth regulator interactions on morphogenesis in <i>Solanum</i> species	357
29. COUTTS, R. H. A.	Observations on the isolation, morphology and culture of potato leaf and meristem protoplasts	371
30. WESTCOTT, R. J., GROUT, B. W. W. and HENSHAW, G. G.	Rapid clonal propagation of <i>Solanum curtilobum</i> cv. Mallku by aseptic shoot meristem culture	377
VII. Floral biology, incompatibility and haploidy		383
31. SYMON, D. E.	Sex forms in <i>Solanum</i> (Solanaceae) and the role of pollen collecting insects	385
32. QUAGLIOTTI, L.	Floral biology of <i>Capsicum</i> and <i>Solanum melongena</i>	399
33. PANDEY, K. K.	The genus <i>Nicotiana</i> : evolution of incompatibility in flowering plants	421
34. HOGENBOOM, N. G.	Incompatibility and incongruity in <i>Lycopersicon</i>	435
35. HERMSEN, J. G. TH. and SAWICKA, E.	Incompatibility and incongruity in tuber-bearing <i>Solanum</i> species	445
36. POCHARD, E. and DUMAS DE VAULX, R.	Haploid parthenogenesis in <i>Capsicum annuum</i> L.	455

CONTENTS

VIII. Biosystematics of genera and sections		473
37. PLOWMAN, T. The genus <i>Brunfelsia</i> : a conspectus of the taxonomy and biogeography		475
38. AVERETT, J. E. Biosystematics of the physaloid genera of the Solaneae in North America		493
39. JACKSON, B. P. and BERRY, M. I. <i>Mandragora</i> —taxonomy and chemistry of the European species		505
40. HEISER, C. B., JR., BURTON, D. L. and SCHILLING, E. E., JR. Bio-systematic and taxometric studies of the <i>Solanum nigrum</i> complex in eastern North America		513
41. EDMONDS, J. M. Biosystematics of <i>Solanum</i> L., section <i>Solanum</i> (<i>Maurella</i>)		529
42. ANDERSON, G. J. Systematic and evolutionary consideration of species of <i>Solanum</i> , section <i>Basarthrum</i>		549
43. ROE, K. E. Dispersal and speciation in <i>Solanum</i> , section <i>Brevantherum</i>		563
44. NEE, M. Patterns in biogeography in <i>Solanum</i> , section <i>Acanthophora</i>		569
45. WHALEN, M. D. Speciation in <i>Solanum</i> , section <i>Androceras</i> ..		581
IX. Biosystematics of domesticates		597
46. OMIDIJI, M. O. Crossability relationships between some species of <i>Solanum</i> , <i>Lycopersicon</i> and <i>Capsicum</i> cultivated in Nigeria ..		599
47. RAO, N. N. The barriers to hybridization between <i>Solanum melongena</i> and some other species of <i>Solanum</i>		605
48. PEARCE, K. and LESTER, R. N. Chemotaxonomy of the cultivated eggplant—a new look at the taxonomic relationships of <i>Solanum melongena</i> L.		615
49. KHAN, R. <i>Solanum melongena</i> and its ancestral forms		629
50. HAWKES, J. G. Evolution and polyploidy in potato species ..		637
51. RAMANNA, M. S. and HERMSEN, J. G. TH. Genome relationships in tuber-bearing Solanums		647
52. GRUN, P. Evolution of the cultivated potato: a cytoplasmic analysis		655
53. RICK, C. M. Biosystematic studies in <i>Lycopersicon</i> and closely related species of <i>Solanum</i>		667
54. PICKERSGILL, B., HEISER, C. B. and MCNEILL, J. Numerical taxonomic studies on variation and domestication in some species of <i>Capsicum</i>		679
55. MCLEOD, M. J., ESHBAUGH, W. H. and GUTTMAN, S. I. A preliminary biochemical systematic study of the genus <i>Capsicum</i> —Solanaceae		701
X. Resolutions		715
56. Resolutions		717
XI. Indexes		719
57. Taxonomic index		721
58. General index		733
