

CONTENTS

COMPOSITE SYSTEMS FROM NATURAL AND SYNTHETIC POLYMERS; AN OVERVIEW

James C. Seferis and Alf de Ruvo.....	1
---------------------------------------	---

MOLECULAR MORPHOLOGY AND COMPOSITE STRUCTURE

Scattering Techniques for Characterizing Molecular
Morphology of Polymers

Richard S. Stein	7
------------------------	---

The Use and Limitations of Wetting Measurements in the Prediction
of Adhesive Performance

John C. Berg.....	23
-------------------	----

Modification of Fiber Surfaces

Graham G. Allan.....	47
----------------------	----

Cellulose - Reinforced Polyesters

Per Flodin and Pawel Zadorecki.....	59
-------------------------------------	----

Cellulose in Polymeric Composites

Carl Klason and Josef Kubát.....	65
----------------------------------	----

Matrix Modification in Melamine Plastics

Kjell Olof Elmståhl and Bengt Wesslén.....	75
--	----

Thermal Bonding of Cellulosic Networks with Polyethylene Fibers

Bo Westerlind, Mikael Rigdahl and Anders Larsson.....	83
---	----

Liquid Crystal Solutions of Cellulose and Cellulose Derivatives

Richard D. Gilbert.....	97
-------------------------	----

ANISOTROPY AND MECHANICAL PROPERTIES

The Material Index Formulation for the Mechanical Properties of Crystalline Polymers	
James C. Seferis and Alan R. Wedgewood.....	109
Acoustic Emission from Fatigue Damage in $(0/\pm 45/90)_s$ Gr/Ep Laminates	
Claes-Göran Gustafson.....	131
A Model for the Compressive Buckling of Extended Chain Polymers	
Steven J. DeTeresa, Roger S. Porter and Richard J. Farris.....	141
Mechanical and Fracture Characteristics of Paper-Sheets	
Pericles S. Theocaris.....	173
Fracture Resistance of Laminated Composites	
John C. Halpin.....	189

ENVIRONMENTAL EFFECTS INCLUDING FLAMMABILITY

Modelling of Small-Strain Properties and Environmental Effects on Paper and Cellulosic Fibres	
Lennart Salmén, Petter Kolseth and Mikael Rigdahl.....	211
Cure and Durability of Adhesives for Wood-based Composites	
Robert H. Young.....	225
The Influence of Temperature on the Structure of Polyester Matrices	
Per Flodin and Pontus Bergmark.....	233
The Influence of Laminate Thickness on the Mechanical Properties of Graphite Epoxy Composites	
Leif Carlsson.....	239

Composite Materials in Aircraft Design

Pontus Nordin..... 245

Flammability of Polymers

James M. Peterson..... 259

Flammability of Cellulose

Birgit A.-L. Östman..... 269

TECHNOLOGY TRANSFER

The Role of Technology Transfer in Industrial Development

Thomas Liljemark..... 283

Technology Transfer at the University of Washington

Donald R. Baldwin..... 287

COMPOSITE SYSTEMS FROM NATURAL AND SYNTHETIC POLYMERS: A SUMMARY WITH
VIEWS ON TECHNOLOGY TRANSFER

Lennart Salmén and Eric B. Stark..... 295

Author Index..... 301

Participants..... 303

Subject Index..... 305
