

## CONTENIDO

### I. Médula espinal

- The release of acetylcholine from the spinal cord  
of the cat by antidromic stimulation of motor nerves  
**Kuno, M. y Rudomín, P.** . . . . . 3
- Effects of 4-aminopyridine on transmission  
in excitatory and inhibitory synapses in the spinal cord  
**Jankowska, E., Lundberg, A.,  
Rudomín, P. y Sykova, E.** . . . . . 21
- The influence of the GAMA system on cross-correlated  
activity of Ia spindles and its relation  
to information transmission.  
**Inbar, G., Madrid, J. y Rudomín, P.** . . . . . 27
- Locomotion in the decerebrate stingray  
**Leonard, R.B., Rudomín, P., Droge, M.H.,  
Grossman, A.E. y Willis, W.D.** . . . . . 33
- Presynaptic depolarization of unmyelinated  
primary afferent fibers in the spinal cord of the cat  
**Calvillo, O., Madrid, J. y Rudomín, P.** . . . . . 39
- Specific and potassium components in the depolarization  
of the Ia afferents in the spinal cord of the cat  
**Jiménez, I., Rudomín, P.,  
Solodkin, M. y Vyklicky, L.** . . . . . 51

Supraspinal control of a short-latency cutaneous pathway to hindlimb motoneurons

**Fleshman, J.W., Rudomín, P. y Burke, R.E.** ..... 57

Population synaptic potentials

evoked in lumbar motoneurons following stimulation of the nucleus reticularis

gigantocellularis during carbachol-induced atonia

**Yamuy J., Jiménez, I., Morales, F., Rudomín y P., Chase, M.** ..... 69

## II. Reflejos circulatorios

On the dynamics of the lung's capillary circulation.

II. The Vasomotor control.

**García Ramos, J. y Rudomín, P.** ..... 79

On the dynamics of the lung's capillary circulation

III. The effects of anoxia

**García Ramos, J. y Rudomín, P.** ..... 95

Efectos de la hipoxia sobre la excitabilidad

del músculo cardiaco y sobre los sistemas

que determinan el mantenimiento de la presión arterial

**Rudomín, P. y Deutsch, E.** ..... 107

Actividad subliminal de los quimiorreflejos

originados por el cianuro de potasio

**Rudomín, P. y Rubio, R.** ..... 127

Efectos de la hipoxia e hipoventilación sobre la sumación

temporal y espacial del centro cardioinhibidor

**Rudomín, P. Erlij, D. y Eberstadt, P.** ..... 143

Influencia de la anestesia, asfixia y algunas drogas sobre la actividad refleja del centro cardioinhibidor <b>Rudomín, P.</b> .....	157
Efectos de la estimulación de la formación reticular bulbar sobre la activación refleja del centro cardioinhibidor <b>Rudomín, P.</b> .....	165
Action of lung chemoreceptors on the cardioinhibitory center <b>Rudomín, P.</b> .....	175
Induced arterial oscillations of blood pressure as a method for investigating regulation of level of blood pressure <b>Rudomín, P. y MacPherson, L.</b> .....	183
Arterial blood pressure oscillations produced by intermittent activation of baroreceptors as a method for analyzing blood pressure level regulation <b>Rudomín, P. y MacPherson, L.</b> .....	187
A dynamic analysis of arterial blood pressure control systems <b>Rudomín, P. y Macpherson, L.</b> .....	199

### III. Reflejos laríngeos

Some aspects of the reflex activation of the recurrent laryngeal motoneurons of the cat <b>Rudomín, P.</b> .....	225
Recurrent laryngeal nerve discharges produced by cutaneous and vagal afferent stimulation <b>Rudomín, P.</b> .....	239

The influence of the motor cortex upon the vagal motoneurons of the cat	
<b>Rudomín, P.</b> .....	253
Recurrent laryngeal discharges produced upon stimulation of the bulbar pyramidal tract and nearby structures	
<b>Rudomín, P.</b> .....	263
The electrical activity of the cricothyroid muscles of the cat.	
<b>Rudomín, P.</b> .....	275
Some aspects of the controll of cricothyroid muscle activity.	
<b>Rudomín, P.</b> .....	295

#### IV. Corteza cerebral

Sensory activation of neurons in the cat's cerebral cortex	
<b>Brooks, V.B., Rudomín, P. y Slayman, C.L.</b> .....	313
Peripheral receptive fields on neurons in the cat's cerebral cortex	
<b>Brooks, V.B., Rudomín, P. y Slayman, C.L.</b> .....	329

#### V. Diencéfalo

Distribution of electrical responses to somatic stimuli in the diencephalon of the cat, with special reference to the hypothalamus.	
<b>Rudomín, P., Mallani, A., Borlone, M. y Zanchetti, A.</b> .....	355
Microelectrode recording of slow wave and unit responses to afferent stimuli in the hypothalamus of the cat	

<b>Rudomín, P., Malliani, A. y Zanchetti, A.</b> . . . . .	385
--	-----

Contribution of local activity and electric spread  
to somatically evoked potentials in different areas  
of the hypothalamus

<b>Malliani, A., Rudomín, P. y Zanchetti, A.</b> . . . . .	415
--	-----

## VI. Fisiología muscular y renal

Catch property in single mammalian motor units

<b>Burke, R.E., Rudomín, P. y Zajac, F.E. III</b> . . . . .	435
---	-----

The effect of activation history on tension production  
by individual muscle units

<b>Burke, R.E., Rudomín, P. y Zajac, F.E. III</b> . . . . .	439
---	-----

Glucosuria condicionada. Sobre el control nervioso  
de la reabsorción tubular de la glucosa

<b>Rudomín, P.</b> . . . . .	455
------------------------------	-----

## VII. Notas técnicas

Continuous analog estimation  
for neural statistical parameters

<b>Rudomín, P. y Dutton, H.</b> . . . . .	475
---	-----

A method for the dynamic continuous estimation  
of excitability changes of single fiber terminals  
in the central nervous system

<b>Madrid, J., Alvarado, Dutton, H. y Rudomín, P.</b> . . . . .	479
---	-----
