## **Contents**

<b>CHAPTER 1</b>	<b>Why Renewables? Introduction and Summary</b>	1
Problems with Our Current Energy System	2	
Renewables: Fuel of the Future?	4	
Renewables Have Problems	6	
Where Renewables Are Today	9	
The Case for Policy Intervention	11	
Policy and Markets: The Natural Tension	12	
The Paradox of "Market-Friendly Policies"	12	
Renewable Technologies	12	
Electricity System Restructuring and Renewables	14	
Green Electricity	15	
Feed-In Laws	18	
The Centralized Bidding System	20	
Renewable Portfolio Standard (RPS)	22	
Green Certificates	25	
Close	26	
Notes for Chapter 1	28	
<b>CHAPTER 2</b>	<b>Renewable Electricity-Generating Technologies: Cost and Performance</b>	31
Wind Power	33	
Photovoltaics	39	
Biomass	44	
Landfill Methane	50	
Hydropower	52	
Geothermal Electricity	55	

Closing Thoughts .....	59	Why Is This Market So Successful? .....
Notes for Chapter 2.....	60	Constraint: Can't Build New Capacity .....
<b>CHAPTER 3 Electricity Restructuring and Renewables: A Primer .....</b>	<b>65</b>	Administrative Challenges.....
Before the Revolution: Noncompetitive Electricity Systems.....	67	What's Next for the Dutch Green Market .....
Forces for Change .....	69	Notes for Chapter 6 .....
Response: Introduction of Competition.....	71	
What Does Restructuring Mean for Renewables?.....	75	
Summary.....	79	
Notes for Chapter 3.....	80	
<b>CHAPTER 4 The UK Green Electricity Market: Why Was It a Flop? .....</b>	<b>82</b>	
Description of the UK Green Market .....	83	
Reason 1 for Flop: Focus on Cost .....	84	
Reason 2 for Flop: Lousy Marketing by Incumbents .....	86	
Reason 3 for Flop: Policy Conflicts and Uncertainty .....	87	
What's Next for the UK Green Market? .....	90	
Notes for Chapter 4.....	91	
<b>CHAPTER 5 The U.S. Green Electricity Market: Lessons Learned .....</b>	<b>93</b>	
Findings.....	93	
Regulatory Setting.....	94	
The U.S. Green Power Market Today .....	95	
Measuring Success I: Are Consumers Signing Up?.....	96	
Measuring Success II: Is New Renewable Capacity Being Built? .....	99	
Measuring Success III: Is Anyone Making Money? .....	100	
We Have Met the Enemy...and He Is Us <sup>12</sup> .....	101	
Partnering with Environmental Groups: Worth the Effort.....	104	
Notes for Chapter 5.....	107	
<b>CHAPTER 6 The Dutch Green Electricity Market: Lessons Learned .....</b>	<b>109</b>	
History and Current Status .....	109	
		CHAPTER 7 Understanding Green Electricity Markets: Why Do People Pay More for Electricity? .....
		Who Are the Residential Green Buyers? .....
		What Do Residential Green Buyers Want? .....
		Nonresidential Green Buyers: Who are They? .....
		Summary .....
		Notes for Chapter 7 .....
		<b>CHAPTER 8 Feed-in Laws: Crucial to Success but Not Dead .....</b>
		Conclusions on the Feed-in Law Approach .....
		The U.S.: PURPA .....
		Denmark's Wind Buyback Rules .....
		Germany's Feed-In Law .....
		Notes for Chapter 8 .....
		<b>CHAPTER 9 The UK's "Tender Process": A Success but at a Cost .....</b>
		How the NFFO Worked .....
		The Results .....
		What Worked .....
		What Didn't Work .....
		Epilogue .....
		Notes for Chapter 9 .....
		<b>CHAPTER 10 The Renewable Portfolio Standard: A Success Story .....</b>
		What Is the Renewable Portfolio Standard? .....
		Pros and Cons .....
		Lessons Learned .....
		The UK's Renewable Obligation <sup>2</sup> .....

.....	59	Why Is This Market So Successful? .....	110

.....	109	The Results.....	149
.....	109	What Worked.....	152
.....	109	What Didn't Work.....	153
.....	109	Epilogue .....	154
.....	109	Notes for Chapter 9 .....	155
.....	109		
CHAPTER 10 The Renewable Portfolio Standard .....	156		
.....	156	What Is the Renewable Portfolio Standard, and How Does It Work? .....	156
.....	156	Pros and Cons.....	157
.....	156	Lessons Learned .....	158
.....	156	The UK's Renewable Obligation <sup>2</sup> .....	159

U.S.—Overview .....	164
Texas' RPS.....	165
Maine's RPS .....	167
Close .....	169
Notes for Chapter 10.....	170
<b>CHAPTER 11 Green Certificates .....</b>	<b>172</b>
What Is a Green Certificate? .....	173
Trading Environmental Attributes: Not a New Idea .....	174
History of Green Certificates: The Netherlands' Green Labels, 1998–2000 <sup>6</sup> .....	175
Current Status of Green Certificates .....	176
What Are the Current Challenges for Green Certificates? .....	178
Next Steps .....	180
Notes for Chapter 11.....	182

## *Acknowl*

The Diebold Foundation sponsored my  
for this book, patiently waited for me to  
ity for the publishing. Many thanks to  
their generosity and vision.

The Energy Policy and Management  
provided all a researcher could ask for—  
supportive colleagues, and fine research

Gail Reitenbach and Sonia Smith p  
Rose provided illustrations. Gunnar Th  
Christiansen was a source of inspiration.  
Peter and Judith Komor provided the te  
doing good, and a sense of humor. I re  
for all errors, omissions, and other misc
