General Preface to the Series	iii
Preface	iii
<b>1 Tundra, Taiga and Other Northern Words</b>	1
1.1 Arctic   1.2 Subarctic   1.3 Tundra   1.4 Low Arctic and High Arctic   1.5 Taiga   1.6 Forest-tundra   1.7 Conclusion	
<b>2 Radiant Energy and Light</b>	8
2.1 Radiant energy   2.2 Light   2.3 The effect of atmospheric moisture on radiant energy   2.4 Seasons	
<b>3 Water, Soil and Permafrost</b>	12
3.1 Water   3.2 Soil   3.3 Permafrost	
<b>4 Bioclimate</b>	25
4.1 Taiga   4.2 Tundra	
<b>5 Characteristics of Boreal Vegetation</b>	31
5.1 Adaptations   5.2 Tundra   5.3 Forest-tundra   5.4 Taiga	
<b>6 Boreal Animals</b>	37
6.1 Insects   6.2 Amphibians and reptiles   6.3 Birds and mammals   6.4 Schools of thought on boreal endotherm adaptation	
<b>7 Ecosystems and Foodwebs (Foodchains)</b>	48
<b>8 Human Utilization of Boreal Regions</b>	53
8.1 Pre-contact boreal man   8.2 Contact and exploitation 8.3 Conclusion	
<b>9 Research Methods and Procedures Peculiar to Boreal Regions</b>	58
