

vii	Preface A.W.D. Pexton	
ix	Contributors	
xv	Abbreviations	
I	Crops for the 21st century Ben J. Mifflin	1
II	Chemicals from plants: an industry view Steve Hughes	2
17	Antibody production in plants C.P.E. van der Logt, C.S. Sidebottom and P.J. Davis	3
35	Antigen expression on the surface of a plant virus for vaccine production V.E. Spall, C. Porta, K.M. Taylor, T. Lin, J.E. Johnson and G.P. Lomonosoff	4
47	Oleosins as carriers for foreign protein in plant seeds Maurice M. Moloney	5
55	Rubber latex as an expression system for high-value proteins H.Y. Yeang, P. Arokiaaraj, Hafsah Jaafar, Samsidar Hamzah, M.A. Siti Arija and H. Jones	6
65	Food protein engineering of soybean proteins and the development of soy-rice Tomoyuki Katsube, Nobuyuki Maruyama, Fumio Takaiwa and Shigeru Utsumi	7
77	Developing novel pea starches Cliff L. Hedley, Tanya Ya. Bogracheva and Trevor L. Wang	8
89	Manipulating the starch composition of potato A.J. Kortstee, E. Flipse, A.G.J. Kuipers, E. Jacobsen and R.G.F. Visser	9
99	Engineering plant starches by the generation of modified plant biosynthetic enzymes Thomas W. Okita, Thomas W. Greene, Mary J. Laughlin, Peter Salamone, Ronald Woodbury, Sang-Bong Choi, Hiroyuki Ito, Halil Kavakli and Kim Stephens	10
III	Prospects of engineering heavy metal detoxification genes in plants David W. Ow	11

125	Production of the biodegradable plastic polyhydroxy-alkanoates in plants	12
	Kieran M. Elborough, Andrew J. White, Steven Z. Hanley and Antoni R. Slabas	
133	Manipulating metabolic pathways in cotton fibre: synthesis of polyhydroxybutyrate	13
	Maliyakal E. John	
149	Lignin manipulation for fibre improvement	14
	Claire Halpin, M.E. Knight, A. O'Connell and W. Schuch	
159	Engineering canola vegetable oil for food and industrial uses	15
	Jean C. Kridl	
171	Complex lipid biosynthesis and its manipulation in plants	16
	Antoni R. Slabas and Sherrie L. Sanda	
181	Cytochrome b_5 and polyunsaturated fatty acid biosynthesis	17
	Mark A. Smith, A. Keith Stobart, Peter R. Shewry and Johnathan A. Napier	
189	Bioengineering terpenoid production: current problems	18
	D. McCaskill and R. Croteau	
205	The biorefinery: a quality investment opportunity	19
	C. Kj��ller	
217	Subject index
