

CONTENTS

List of Contributors	vi
Preface	viii
L.D. GOTTLIEB and V.S. FORD	
Genetics and developmental studies of the absence of ray florets in <u>Layia discoidea</u>	1
C. MARTIN, R. CARPENTER, E.S. COEN and T. GERATS	
The control of floral pigmentation in <u>Antirrhinum majus</u>	19
J. BAILEY-SERRES, P.G. ISAAC, I.D. SMALL and C.J. LEAVER	
Mitochondrial genome rearrangements associated with the cytoplasmic male sterile phenotype in maize and sorghum	53
D. GRIERSON, M.E. PURTON, J.E. KNAPP and B. BATHGATE	
Tomato ripening mutants	73
P.R. SHEWRY, M.S. WILLIAMSON and M. KREIS	
Effects of mutant genes on the synthesis of storage components in developing barley endosperms	95
C.M. KARSEN, S.P.C. GROOT and M. KOORNNEEF	
Hormone mutants and seed dormancy in <u>Arabidopsis</u> and tomato	119
J.A. ROBERTS	
Mutants and gravitropism	135
J.L. STODDART	
Genetic and hormonal regulation of stature	155
D.J. COVE and C.D. KNIGHT	
Gravitropism and phototropism in the moss <u>Physcomitrella patens</u>	181
I.B. TAYLOR	
ABA deficient tomato mutants	197
C.L. HEDLEY and T.L. WANG	
Seed and foliar mutations in <u>Pisum</u>	219
H. THOMAS	
Foliar senescence mutants and other genetic variants	245
R. HORGAN	
Plant growth substances autonomy in tissue cultures	267
Index	281
Series list	289
