

CONTENTS

Preface	v
Acknowledgements	vi
Hawkes, J.G.	
The economic importance of the family Solanaceae	1
Cocucci, A.	
Evolutionary radiation in neotropical Solanaceae	9
Carvalho, L.d'A. Freire de, Machado, R.D. & Bovini, M.G.	
Seed coat micromorphology of Brazilian species of <i>Schwenckia</i>	23
D'Arcy, W.G.	
Red-flowered <i>Cestrum</i> and red-loving hummingbirds	33
Jackson, J.F.	
Phytic acid in the seeds of <i>Solanum</i> species	45
Lester, R.N., Francisco-Ortega, J. & Al-Ani, M.	
Convergent evolution of heterandry (unequal stamens) in <i>Solanum</i>, proved by spermoderm SEM	51
Lu, A.-M., Zhang, Z.-Y., Chen, Z.-D. & Pan, K.-Y.	
Embryology and adaptive ecology in the genus <i>Przewalskia</i>	71
Zhang Z.-Y. & Lu A.-M.	
A comparative study of <i>Physalis</i>, <i>Capsicum</i> and <i>Tubocapsicum</i>; three genera of Solanaceae	81
Bohs, L. & Olmstead, R.G.	
<i>Solanum</i> phylogeny inferred from chloroplast DNA sequence data	97
Olmstead, R.G., Sweere, J.A., Spangler, R.E., Bohs, L. & Palmer, J.D.	
Phylogeny and provisional classification of the Solanaceae based on chloroplast DNA	111
Estrada, E. & Martínez, M.	
<i>Physalis</i> L. (Solanaceae: Solanaceae) and allied genera: I. A morphology-based cladistic analysis	139
Lepschi, B.J. & Symon, D.E.	
A preliminary cladistic analysis of Australasian <i>Solanum</i> and <i>Lycianthes</i>	161

Solanaceae IV

Persson, V., Knapp, S. & Blackmore, S. Pollen morphology and the phylogenetic analysis of <i>Datura</i> and <i>Brugmansia</i>	171
Newbigin, E., Anderson, M. & Clarke, A. Molecular basis of self-incompatibility in the Solanaceae	189
Agra, M. de F. Diversity and distribution of <i>Solanum</i> subgenus <i>Leptostemonum</i> in north-east Brazil . .	197
Benítez de Rojas, C. & D'Arcy, W. G. Studies of <i>Cestreae</i> of Venezuela	205
Van den Berg, R.G. & Groendijk-Wilders, N. Numerical analysis of the taxa of series <i>Circaeifolia</i> (<i>Solanum</i> sect. <i>Petota</i>)	213
Contreras-M., A. & Spooner, D.M. Revision of <i>Solanum</i> section <i>Etuberosum</i> (subgenus <i>Potatoe</i>)	227
Gorbatenko, L.E. Geographical principles governing the distribution of potato species in South America	247
Kardolus, J.P. Morphological variation within series <i>Acaulia</i> Juz. (<i>Solanum</i> sect. <i>Petota</i>)	257
Martínez, M. Infrageneric taxonomy of <i>Physalis</i>	275
Nee, M. Synopsis of <i>Solanum</i> in the New World	285
Sudhakaran, S. & Ganapathi, A. Biosystematics of South Indian <i>Physalis</i>	335
Agra, M. de F. & Bhattacharyya, J. Ethnomedicinal and phytochemical investigation of the <i>Solanum</i> species in the Northeast of Brazil	341
Bukenya, Z.R. & Carasco, J.F. Ethnobotanical aspects of <i>Solanum</i> L. (Solanaceae) in Uganda	345
Barendse, G.W.M. & van der Weerden, G.M. The conservation of genetic resources of the Solanaceae	361
Daunay, M.-C., Dalmon, A. & Lester, R.N. Management of a collection of <i>Solanum</i> species for eggplant (<i>Solanum melongena</i>) breeding purposes	369

Maxted, N. & Lester, R.N. Solanaceae Information Networks	385
Sonnino, A., Bacchetta, L., Arnone, S., Lai, A., Remotti, P. & Crinò, P. Glandular trichome-mediated resistance to <i>Leptinotarsa decemlineata</i> and to <i>Phytophthora infestans</i> in Potato	399
Holton, T.A. Genetic engineering of flower colour in <i>Petunia</i>	409
Kirtsova, M.V. & Korneva, E.I. The results of selection of steroid-containing species of <i>Solanum</i> subgenus <i>Archaeosolanum</i>	415
Vosman, B., Arens, P., Rus, I. & Smulders, R. The use of molecular markers for the characterisation of tomato cultivars and related <i>Lycopersicon</i> species	417
Williams, C.M.J. & Kirkham, R.P. Review of potato, tomato and capsicum research in Australia	425
