# CONTENTS

<b>Foreword</b>	7
<b>Preface</b>	10
<b>Acknowledgments</b>	13
<b>Authors and Contributors</b>	15
<b>Abbreviations and Acronyms</b>	16
<b>Chapter 1</b>	
<b>From Malthus to Sustainable Development</b>	
Some Intellectual Underpinnings (and a Disclaimer)	20
Why Sustainability?	22
Nine Ways to Achieve Sustainability	23
Economics as the Dismal Science	28
Population, Resources, Environment, and Sustainability	29
Sustainability on the Highway Produced by Three Key Sources of Energy	35
A Look Forward	39
<b>Chapter 2</b>	
<b>Challenges of Sustainable Development</b>	
Concept of Sustainability	42
Factors Governing Sustainable Development	47
Linkages Among Sustainable Development, Environment, and Poverty	50
Determinants of Sustainable Development	65
Case Studies on Sustainable Development	79
<b>Chapter 3</b>	
<b>Global Environmental Issues</b>	
Population, Income, and Urbanization	84
Health Care	87
Food, Fisheries, and Agriculture	87
Materials and Energy Flows	92
Transportation: The Automobile Industry	96
Precautionary Principle	98
Forestry	99
Water Resources	99
Valuation of Nature's Services	101
Coping with Global Problems	103

## **Chapter 4**

### **Sustainable Development Indicators**

Need for Indicators	106
Statistical Procedures	111
Emissions, Diffusion, and Impact Model	112
Aggregating Indicators	116
Other Weighting Systems	119
Use of Principal Component Analysis	123
Three Environmental Quality Indices	123
Summary	132
Annex	133

## **Chapter 5**

### **Environmental Assessment**

National Environmental Policy Act of 1969	140
Environmental Impact Assessment	143
Project Categories Based on Environmental Impacts	147
Impact Identification Methods	147
Environmental Impact Assessment Process	149

## **Chapter 6**

### **Environmental Management: Trends and Policies**

Milestones in Environmental Management	158
Revisiting Complex Issues	162
Sector Policies Concerning the Environment	163
Environmental Impact Assessment (EIA)	171
Institutional Framework for Environmental Management	174
Achievements in Environmental Management	174
People's Perception of the Environment	174
Why is the Environment Bad?	176
Millenium Development Goals	177
Conclusion	182

## **Chapter 7**

### **Legislation, International Law, and Multilateral Environmental Agreements**

Definitions	184
Sources of International Law	186
The Four Questions In the Context of International Law	188
Multilateral Environmental Agreements (MEAs)	201
Some Early Contributions to Environmental Law and Sustainable Development by Lawyers, Scholars, and Judges	210
Conclusion	213

## **Chapter 8**

### **Social Dimensions and Policies**

Eradication of Poverty	219
Participatory Development	228
Consensus Building	231
Nongovernment Organizations (NGOs)	233
Gender and Development	235
Involuntary Resettlement	239
Indigenous Peoples (IPs)	242
Social Exclusion	245
Social Analysis	247
Social Development Indicators (SDIs)	251
Conclusion	257

## **Chapter 9**

### **The Economics of Sustainability**

Evolution of Economic Thinking About the Environment and the Role of Different Economic Factors	260
Concepts of Welfare	262
Public Goods, Common Property, and Private Goods	272
Summary	274

## **Chapter 10**

### **Sustainability: Externalities, Valuation, and Time Externalities**

Valuation	277
Approaches to Valuation	282
Economics Assessment of Sustainable Projects	287
Categories of Costs	290
Economic Life of a Project	291
Economic Assessment of Sustainable Plans and Projects	292
Economic Assessment of Investments in Climate Change Mitigation	293
Summary	297

## **Chapter 11**

### **Natural Resource Accounting**

National Income: Definitions and Limitations	300
Genuine Progress Indicator (GPI)	303
Human Development Index (HDI)	307
World Bank's Wealth of Nations	307
Genuine Savings	310
Summary of National Sustainability Accounting	312

## **Chapter 12**

### **The Role of International Financial Institutions**

Development and Environment at the World Bank	314
Integrating Environment and Poverty Reduction	318
Environment and Growth	321
Millennium Development Goals and the World Bank	325
Attacking Poverty Through Sustainable Development	328
World Bank Experience and Goals	330
Corporate Social Responsibility: The Triple Bottom Line	341
Developed Countries and Sustainable Development	343

## **Chapter 13**

### **International Cooperation**

Organizations Responsible for Sustainable Development	346
Reform and Revitalization of Global Organizations	348
World Summit on Sustainable Development	353
Role of Non-State Actors in Sustainable Development	358
NGOs and Social Entrepreneurs	362
Financing Sustainable Development	364
Cooperation Between Regions	366
Peoples' Earth Charter	367
Conclusion	368

## **Chapter 14**

### **Sustainable Development: Crisis, Conflict, and Compromise**

Crisis	370
Role of Natural Resources and the Environment	371
Conflict	374
Compromise	379
Summary	381

<b>Epilogue</b>	385
