Series Preface.....	vii
Preface.....	ix
Editors.....	xiii
Contributors	xv

PART I Nanomaterials in Nanobiotechnologies: Preparation, Characterization, and Applications

Chapter 1	Bio-Inspired Magnetic Nanoparticles	3
	<i>Georgia C. Papaefthymiou and Eamonn Devlin</i>	
Chapter 2	Nanoparticles for Bioimaging	43
	<i>Hye Sun Park and Yong Taik Lim</i>	
Chapter 3	Biomedical Applications of Dendrimer Porphyrin or Phthalocyanine.....	81
	<i>Woo-Dong Jang and Won-Gun Koh</i>	
Chapter 4	Polymeric Nanoparticles in Cancer Therapy	109
	<i>Heebeom Koo, Ji Young Yhee, Ick Chan Kwon, Kwangmeyung Kim, and Ramesh Subbiah</i>	
Chapter 5	Carbon Nanotube Bioconjugates.....	151
	<i>Monica Samal, Dong Kee Yi, and Shashadhar Samal</i>	
Chapter 6	Biocatalytic Nanosystems	225
	<i>Jaehong Lim and Su Seong Lee</i>	
Chapter 7	Magnetically Induced Hyperthermia for Biomedical Applications.....	261
	<i>Michael Fardis, Ioannis Rabias, Georgios Diamantopoulos, Eleni Karakosta, Danai Tsi trouli, Vassilios Tzitzios, and Georgios Papavassiliou</i>	

PART II Soft Block Nanobuilding: New Preparation Routes of Soft Nanomaterials Using Biomolecules

- Chapter 8** Engineered Biomolecules as Nanomaterials 287
Yun Jung Lee and Ki Tae Nam

PART III Nanomaterials and Bio-MEMS: Nano- and Microscale Hybridization of Materials and Applications

- Chapter 9** Microfluidic-Based Polymer Scaffold Design for Tissue
Engineering 341
Mohana Marimuthu and Sanghyo Kim
- Chapter 10** Fabrication of Mobile Hybrid Microswimmers Using
Micro/Nanoparticles and Bacterial Flagella 361
U. Kei Cheang and Min Jun Kim

PART IV Nanotoxicity Studies and Applications in Eco-Biosystems

- Chapter 11** Environmental Applications of Nanomaterials 385
Jaesang Lee, Byoung Chan Kim, Hun Je Cho, and Changha Lee
- Chapter 12** Cytotoxicity of Biosynthesized Nanomaterials
and Functionalized Nanomaterials: Use in Therapy 417
*Murugan Veerapandian, Kyusik Yun, Ramesh Subbiah, and
Min-Ho Lee*

- Index** 443
