
Contents

About the Editors	xi
Contributors	xiii
1. Overview of Challenges and Opportunities	1
<i>Rakesh K. Gupta, Elliot B. Kennel, and Kwang-Jea Kim</i>	
2. History of Carbon Nanomaterials.....	7
<i>Gary G. Tibbetts</i>	
3. The Incorporation of Nanomaterials into Polymer Media	21
<i>Henry C. Ashton</i>	
4. Nanoparticle Dispersion and Reinforcement by Surface Modification with Additives for Rubber Compounds	45
<i>Kwang-Jea Kim and James L. White</i>	
5. Surface Modification of Carbon Nanofibers.....	77
<i>Max L. Lake, D. Gerald Glasgow, Gary G. Tibbetts, and D.J. Burton</i>	
6. Compounding Layered Silicate Nanocomposites.....	97
<i>Paul Andersen</i>	
7. Dispersion of Agglomerated Nanoparticles in Rubber Processing.....	123
<i>Kwang-Jea Kim and James L. White</i>	
8. The Rheology of Polymeric Nanocomposites.....	151
<i>Subhendu Bhattacharya, Rahul K. Gupta, and Sati Bhattacharya</i>	
9. Fundamentals of Carbon-Based Nanocomposites.....	205
<i>Enrique V. Barrera, Erica Corral, Meisha Shofner, and Daneesh Simien</i>	
10. Polymer Nanocomposites Containing Vapor-Grown Carbon Fibers Aligned by Magnetic or Electric Field Processing.....	223
<i>Tatsuhiko Takahashi and Koichiro Yonetake</i>	
11. Nanocomposites of Liquid Crystalline Polymers Dispersed in Polyester Matrices.....	253
<i>Chang H. Song and Avraam I. Isayev</i>	
12. Transmission Electron Microscopy and Related Techniques in the Structure and Morphological Characterization of Polymer Nanocomposites	309
<i>Vinod K. Berry</i>	

13. Mechanical Properties of Clay-Containing Polymeric Nanocomposites 341
Leszek A. Utracki

14. Mass Transport through Polymer Nanocomposites..... 413
Daniel De Kee and Kyle J. Frederic

15. Flammability Properties of Polymer Nanocomposites.....437
Jin Zhu and Charles A. Wilkie

16. Electrical Properties of Nanoparticle-Filled Polymers463
Elliot B. Kennel

17. Thermal Conductivity of Polymer Nanocomposites.....485
Sushant Agarwal and Rakesh K. Gupta

18. Bio-Based Nanocomposites from Functionalized Plant Oils 513
Chang Kook Hong, Jue Lu, and Richard P. Wool

Index537
