

Contents*

| | |
|------------------------------|------|
| Preface | xi |
| Acknowledgments | xiii |
| Contents of Volume II | xv |

1 Temperature

J. C. OLSON, JR., AND P. M. NOTTINGHAM

| | |
|--|----|
| I. Introduction | 1 |
| II. Effect of Chilling (Cooling, Refrigeration) | 6 |
| III. Effect of Freezing | 11 |
| IV. Effect of High Temperatures | 16 |
| V. Use of Temperature to Control Microorganisms in Foods | 27 |
| VI. Summary | 37 |

2 Ultraviolet Irradiation

M. INGRAM AND T. A. ROBERTS

| | |
|--|----|
| I. Introduction | 38 |
| II. Effects of Ultraviolet Light on Microorganisms | 40 |
| III. Use of Ultraviolet Light in the Treatment of Food | 41 |
| IV. Combination Effects and Interactions | 45 |

3 Ionizing Irradiation

M. INGRAM AND T. A. ROBERTS

| | |
|--|----|
| I. Introduction | 46 |
| II. Effect of Ionizing Radiations on Microorganisms | 50 |
| III. Use of Ionizing Radiations to Control Microorganisms in Foods | 61 |
| IV. Combination Effects and Interactions | 67 |

*Persons listed in Table of Contents are the chairpersons of their respective committees. Their affiliations are listed in Appendix III.

| | | |
|-----|---|-----|
| ✓ 4 | Reduced Water Activity | |
| | J. H. B. CHRISTIAN | |
| | I. Introduction | 70 |
| | II. Effects of Reduced Water Activity on Microorganisms | 76 |
| | III. Use of Reduced a_w to Control Microorganisms in Foods | 85 |
| | IV. Interactions of a_w and Other Factors | 90 |
| ✓ 5 | pH and Acidity | |
| | D. A. CORLETT, JR., AND M. H. BROWN | |
| | I. Introduction | 92 |
| | II. Effects of pH on Microorganisms | 95 |
| | III. Effects of pH on Food Spoilage Microorganisms | 104 |
| | IV. Effects of pH on Pathogens | 106 |
| | V. Use of pH to Control Microorganisms in Foods | 110 |
| ✓ 6 | Oxidation-Reduction Potential | |
| | M. H. BROWN AND O. EMBERGER | |
| | I. Introduction | 112 |
| | II. Effects of Redox Potential on Microorganisms | 119 |
| | III. Use of Redox Potential to Control Microorganisms in Foods | 122 |
| | IV. Combination Effects and Interactions | 123 |
| 7 | Organic Acids | |
| | A. C. BAIRD-PARKER | |
| | I. Introduction | 126 |
| | II. Effects of Organic Acids on Microorganisms | 127 |
| | III. Use of Organic Acids to Control Microorganisms in Foods | 134 |
| 8 | Curing Salts and Related Materials | |
| | H. PIVNICK | |
| | I. Introduction | 136 |
| | II. Effect of Curing Salts | 138 |
| | III. Controls | 158 |
| 9 | Antibiotics in Foods | |
| | A. HURST | |
| | I. Introduction | 160 |
| | II. Antibiotics as Food Preservatives | 160 |
| | III. Antibiotics for Growth Enhancement and Disease Control in Farm Animals | 163 |
| | IV. Antibiotic Residues | 167 |

10 Gases as Preservatives

D. S. CLARK AND J. TAKÁCS

| | |
|---------------------|-----|
| I. Introduction | 170 |
| II. Carbon Dioxide | 171 |
| III. Sulfur Dioxide | 180 |
| IV. Ethylene Oxide | 184 |
| V. Propylene Oxide | 188 |
| VI. Ozone | 189 |

✓11 Packaging

H. J. SINELL

| | |
|------------------------------------|-----|
| I. Introduction | 193 |
| II. Packaging Materials | 193 |
| III. The Microbiology of Packaging | 200 |
| IV. Production Control | 203 |

12 Injury and Its Effect on Survival and Recovery

A. HURST

| | |
|--|-----|
| I. Introduction | 205 |
| II. Characteristics of Injured Microbes | 206 |
| III. Enumeration of Injured Microbes | 210 |
| IV. The Significance of Injured Microbes to Food Processing | 213 |
| V. Effects of Injury and Resuscitation on Microbiological Criteria | 214 |

✓13 Interacting Factors Affecting Mixed Populations

H. J. SINELL

| | |
|---|-----|
| I. Introduction | 215 |
| II. Environmental Factors | 215 |
| III. Implicit Parameters (Mutual Interactions in Mixed Populations) | 221 |

14 Cleaning, Disinfection, and Hygiene

K. H. LEWIS

| | |
|--|-----|
| I. Introduction | 232 |
| II. Water | 233 |
| III. Cleaning Agents | 233 |
| IV. Disinfectants | 238 |
| V. Methods of Testing | 239 |
| VI. Sanitation of Food-Processing Plants | 244 |
| VII. Sanitation in Food Service Establishments and Markets | 248 |

| | |
|--|-----|
| VIII. Physical Facilities and Services That Enhance Food Hygiene | 250 |
| IX. Employee Health and Hygienic Practices | 252 |
| X. Safety Precautions | 254 |
| XI. Glossary | 255 |
| Bibliography | 259 |
| Appendix I The ICMSF: Its Purposes and Accomplishments | 298 |
| History and Purpose | 298 |
| Membership and Subcommissions | 299 |
| Accomplishments | 300 |
| Financing | 303 |
| Appendix II Contributors to the Sustaining Fund of ICMSF | 304 |
| Appendix III Members and Consultants of ICMSF and Its Subcommissions | 306 |
| Members of the ICMSF | 306 |
| Balkan and Danubian Subcommission | 307 |
| Latin-American Subcommission | 307 |
| Middle East-North African Subcommission | 308 |
| Consultants for this Volume | 308 |
| Index | 311 |
