

Contents

Part I Introduction, Numerical Overview, and Data-Sets

| | | |
|----------|---|----|
| 1 | The March Towards the Quantitative Analysis of Palaeolimnological Data | 3 |
| | John P. Smol, H. John B. Birks, André F. Lotter, and Steve Juggins | |
| 2 | Overview of Numerical Methods in Palaeolimnology | 19 |
| | H. John B. Birks | |
| 3 | Data-Sets..... | 93 |
| | H. John B. Birks and Vivienne J. Jones | |

Part II Numerical Methods for the Analysis of Modern and Stratigraphical Palaeolimnological Data

| | | |
|----------|---|-----|
| 4 | Introduction and Overview of Part II | 101 |
| | H. John B. Birks | |
| 5 | Exploratory Data Analysis and Data Display | 123 |
| | Steve Juggins and Richard J. Telford | |
| 6 | Assessment of Uncertainties Associated with Palaeolimnological Laboratory Methods and Microfossil Analysis | 143 |
| | Louis J. Maher, Oliver Heiri, and André F. Lotter | |
| 7 | Clustering and Partitioning | 167 |
| | Pierre Legendre and H. John B. Birks | |
| 8 | From Classical to Canonical Ordination..... | 201 |
| | Pierre Legendre and H. John B. Birks | |

9 Statistical Learning in Palaeolimnology 249
Gavin L. Simpson and H. John B. Birks

**Part III Numerical Methods for the Analysis
of Stratigraphical Palaeolimnological Data**

10 Introduction and Overview of Part III 331
H. John B. Birks

11 Analysis of Stratigraphical Data 355
H. John B. Birks

12 Estimation of Age-Depth Relationships 379
Maarten Blaauw and Einar Heegaard

13 Core Correlation 415
Roy Thompson, R. Malcolm Clark, and Geoffrey S. Boulton

14 Quantitative Environmental Reconstructions from
Biological Data 431
Steve Juggins and H. John B. Birks

15 Analogue Methods in Palaeolimnology 495
Gavin L. Simpson

16 Autocorrelogram and Periodogram Analyses of
Palaeolimnological Temporal-Series from Lakes in
Central and Western North America to Assess Shifts
in Drought Conditions 523
Pierre Dutilleul, Brian F. Cumming, and Melinda Lontoc-Roy

**Part IV Case Studies and Future Developments
in Quantitative Palaeolimnology**

17 Introduction and Overview of Part IV 551
H. John B. Birks

18 Limnological Responses to Environmental Changes
at Inter-annual to Decadal Time-Scales 557
André F. Lotter and N. John Anderson

19 Human Impacts: Applications of Numerical Methods to
Evaluate Surface-Water Acidification and Eutrophication 579
Gavin L. Simpson and Roland I. Hall

20 Tracking Holocene Climatic Change with Aquatic Biota
from Lake Sediments: Case Studies of Commonly used
Numerical Techniques 615
Brian F. Cumming, Kathleen R. Laird, Sherylyn C. Fritz,
and Dirk Verschuren

21 Conclusions and Future Challenges 643
H. John B. Birks

Glossary 675
