

Contents

G. MILAZZO - Introductory Remarks	1
L. GIANNICO - Energetics and Technology of the Biological Disposal of Wastes. Opening Lecture	3
W. SCHÖNBORN - The Significance of Biotechnological Processes for the Treatment and Disposal of Solid Wastes. 1st-Day Introductory Lecture	5
A. FARNETI, S. MOSCATELLI and V. ROVERANO - Products for Agriculture from Sludges of Organic Wastes with the BAV Reactor	19
H. ZÜRRER and R. BACHOFEN - Hydrogen Production from Lactate and Lactate - Containing Wastes by the Photosynthetic Bacterium <i>Rhodospirillum rubrum</i>	31
M. MORESI and E. SEBASTIANI - Yeast Production from Whey	37
A.F.M. van VELSEN and G. LETTINGA - Digestion of Animal Manure	55
I.J. HIGGINS, P.D. GILBERT and J. WYATT - Microbial Degradation of Oil in the Environment	65
O. MEYER - Growth of Carbon Monoxide Oxidizing Bacteria with Industrial Gas Mixtures, Automobile Gas Exhaust and Other Unconventional CO-Containing Gases	79
W. MARCONI - Synthesis of 1st- Day Papers	87
C.M. ASINARI di SAN MARZANO, R. BINOT, M. de BRUYN, M. DELAFONTAINE, J.L. FRIPIAT, A. I. IBRAHIM, H.P. NAVEAU and E.J. NYNS - Improved Biome- thanation to Face Waste Variety and New Findings in Microbiology; Alternative Technologies for Energy Recovery. 2nd - Day Introductory Lecture	89
G. LETTINGA, A.F.M. van WELSEN, S. HOBMA and W. de ZEEUW - Feasibility of Anaerobic Treatment for the Direct Treatment of and the Energy Recovery from Urban Wastes	97
L. DEGEN and A. VIGLIA - Energy and Fertilizer from Manure	111
G.C. GRIGNASCHI, F. TOMBETTI, M. DEL BORGHI and G. FERRAILOLO - Biological Waste Treatment with Reference to Environment and Energetics	119
D. HAWKES and R. HORTON - Optimization of Anaerobic Digestors for Maximum Energy Production	131
R. HORTON and D. HAWKES - The Design of Anaerobic Digestors	143
A. MICHELI - Possibilities for Energy Recovery in the Treatment of Effluents from Distil- leries and Feedlot Operations	151
G. ACTIS, A. LUZZATTI, A. MARCHESINI and N. SIRAGUSA - Compost Derived from the Bioconversion of Urban Wastes	163
L.H. THOMPSON - Synthesis of 2nd-Day Papers	173
L. JOASSIN et D. MATAGNE -Méthanisation des Résidus Urbains: Etude Théorique du Bilan Energétique et Aspects Economiques	175
G. C. CHIESA - Urban Solid Waste Management; Economics of Some Recovery Systems	185
C. RAPIN, S. DESAGHER et R. BUVET - Prévision, Détermination Analytique et Optimisa- tion du Pouvoir Méthanogène de Boues Résiduaire Biologiques Variées	195

VIII

<i>G. PEZZETTI</i> - Considérations sur la Législation Italienne en Matière d'Elimination des Déchets	201
<i>P. CODIN</i> - L'Information des Collectivités Locales en Vue de Développer la Récupération des Matières Fertilisantes Contenues dans les Boues Résiduairees	213
<i>L. KLEIN</i> - La Politique de Gestion des Déchets dans la Communauté Européenne	231
<i>R. BUVET, J.P. MASSUE and G. MILAZZO</i> - Conclusions	241
