

CONTENTS

<i>Preface</i>	vii
Author Index	xiii
Chapter 1 Introduction <i>Larry L. Hench and June Wilson</i>	1
Chapter 2 The use of Alumina and Zirconia in Surgical Implants <i>Samuel F. Hulbert</i>	27
Chapter 3 Bioactive Glasses <i>Larry L. Hench and Orjan Andersson</i>	49
Chapter 4 Bioactive Glasses: Gene Activation <i>Larry L. Hench</i>	71
Chapter 5 Angiogenic Potential of Bioactive Glasses <i>Alejandro A. Gorustovich, Luis A. Haro Durand,</i> <i>Judith A. Roether and Aldo R. Boccaccini</i>	87
Chapter 6 Bioactive Glasses: Clinical Applications — Historical <i>June Wilson, Antti Yli-Urpo and Risto-Pekka Happonen</i>	95
Chapter 7 Clinical Applications of Bioactive Glasses: ENT <i>Larry L. Hench</i>	109
Chapter 8 Clinical Applications of Bioactive Glasses: Endosseous Ridge Maintenance <i>Larry L. Hench</i>	115
Chapter 9 Clinical Applications of Bioactive Glasses: Periodontal Repair <i>Paul Robinson II</i>	125
Chapter 10 Clinical Applications of Bioactive Glasses: Maxillofacial Repair <i>Ian Thompson</i>	137

Chapter 11	Clinical Applications of Bioactive Glass: Orthopaedics <i>David M. Gaisser and Larry L. Hench</i>	151
Chapter 12	Bioactive Glass in Spinal Repair <i>Janek Frantzen</i>	159
Chapter 13	A/W Glass-Ceramic: Processing and Properties <i>Tadashi Kokubo</i>	171
Chapter 14	A/W Glass-Ceramic: Clinical Applications <i>Takao Yamamuro</i>	189
Chapter 15	Ceravital® Bioactive Glass-Ceramics <i>Ulrich M. Gross, Christian Müller-Mai and Christian Voigt</i>	209
Chapter 16	Machinable and Phosphate Glass-Ceramics <i>Wolfram Höland and Werner Vogel</i>	215
Chapter 17	Hydroxyapatites <i>Racquel Z. LeGeros and John P. LeGeros</i>	229
Chapter 18	Silicon Substituted Hydroxyapatite <i>Robert J. Friederichs, William Bonfield and Serena M. Best</i>	279
Chapter 19	Porous Hydroxyapatite <i>Edwin C. Shors and Ralph E. Holmes</i>	287
Chapter 20	Stability of Calcium Phosphate Ceramics and Plasma Sprayed Coatings <i>C.P.A.T. Klein, J.G.C. Wolke and K. de Groot</i>	305
Chapter 21	Hydroxyapatite Coatings <i>William R. Laceyfield</i>	331
Chapter 22	Bioactive Glass Coatings <i>Larry L. Hench and Orjan Andersson</i>	349
Chapter 23	Bioactive HA Coatings by Ti Surface Activation <i>Tadashi Kokubo and Seiji Yamaguchi</i>	355
Chapter 24	Pyrolytic Carbon Coatings <i>Reinhold H. Dauskardt and Robert O. Ritchie</i>	367

Chapter 25	Pyrolytic Carbon Prostheses: Clinical Results <i>Jonathan Shute</i>	389
Chapter 26	Bioceramic Composites <i>Paul Ducheyne, Michele Marcolongo and Evert Schepers</i>	397
Chapter 27	Design of Bioactive Ceramic-Polymer Composites <i>William Bonfield</i>	403
Chapter 28	Calcium Phosphate Cements <i>Sanjukta Deb</i>	409
Chapter 29	Radiotherapy Glasses <i>Delbert E. Day and Thomas E. Day</i>	431
Chapter 30	Dental Glass-Ceramics and ZrO ₂ -Ceramics <i>Wolfram Höland, Marcel Schweiger and Volker M. Rheinberger</i>	447
Chapter 31	Bioactive Glass for Tooth Remineralization and Pain Desentization <i>David C. Greenspan and Larry L. Hench</i>	455
Chapter 32	Porous Bioactive Ceramic and Glass Scaffolds for Bone Regeneration <i>Julian R. Jones</i>	463
Chapter 33	Treatment of Chronic Wounds with Bioactive Borate Glass Fibers <i>Steven Jung</i>	487
Chapter 34	Bioactive Glass-Ceramics for Load-Bearing Applications <i>Oscar Peitl, Edgar D. Zanotto, Francisco C. Serbena and Larry L. Hench</i>	495
Chapter 35	Porous Wall, Hollow Glass Microspheres <i>George G. Wicks, Steven Serkiz, Shuyi Li and William Dynan</i>	505
Chapter 36	Molecular Modeling of Bioactive Glasses and Reactions <i>Paul Robinson II and Larry L. Hench</i>	511

Chapter 37	Characterization of Bioceramics <i>Larry L. Hench</i>	521
Chapter 38	Regulation of Medical Devices: Historical <i>Emanuel Horowitz and Edward Mueller</i>	541
Chapter 39	Regulation of Medical Devices: Current Status <i>David C. Greenspan</i>	549
Chapter 40	Technology Transfer of Bioceramics: From Concept to Commerce <i>Larry L. Hench and Giuseppe Cama</i>	561
Chapter 41	Ethical Issues <i>Larry L. Hench</i>	573
Chapter 42	Summary and Future Directions <i>Larry L. Hench</i>	583
	<i>Index</i>	593
