Foreword by John B. Cobb Jr. ix

Preface xiii

Acknowledgments xvii

Introduction: Life's Sensibilities 1

I Selves

1 Valuable Viruses 17

Frank P. Ryan

2 More Like a Waterfall 23

William Day

3 Alarmones 35

Antonio Lazcano, Arturo Becerra, and Luis Delaye

4 Early Sensibilities 45

Kenneth H. Nealson

II Groups

5 Smart Bacteria 55

Eshel Ben-Jacob, Yoash Shapira, and Alfred I. Tauber

6 Ancient Architects 63

Wolfgang E. Krumbein and Celeste A. Asikainen

7 Others 71

Laurie Lassiter

8 Nested Communities 91

James MacAllister

III Earth

9 Cosmic Rhythms of Life 109

Bruce Scofield

10 Life's Tectonics 123

Paul D. Lowman Jr. and Nathan Currier

11 Evolutionary Illumination 129

Peter Warshall

IV Chimeras

12 Symbiogenesis in Russia 153

Victor Fet

13 From Movement to Sensation 159

John L. Hall and Lynn Margulis

14 Packaging DNA 167

Andrew Maniotis

15 Lemurs and Split Chromosomes 173

Robin Kolnicki

16 Interspecies Hybrids 183

Sonya E. Vickers and Donald I. Williamson

17 Origins of the Immune System 199

Margaret J. McFall-Ngai

18 Medical Symbiotics 207

Jessica Hope Whiteside and Dorion Sagan

V Consciousness

19 Animal Consciousness 221

Gerhard Roth

20 Brains and Symbols 233

John Skoyles

21 Thermodynamics and Thought 241

Dorion Sagan

22 "I Know Who You Are, I Know Where You Live" 251

Judith Masters

23 Cultural Networks 259

Luis Rico
