

# Contents

## **Part I Synthesis and Fundamentals of Ionic Liquids for Biomass Conversion**

- 1 Fundamentals of Ionic Liquids . . . . . 3**  
Junli Xu, Qing Zhou, Xinxin Wang, Xingmei Lu,  
and Suojian Zhang
- 2 Solubilization of Biomass Components with Ionic Liquids  
Toward Biomass Energy Conversions . . . . . 29**  
Mitsuru Abe and Hiroyuki Ohno
- 3 Choline Chloride-Derived ILs for Activation  
and Conversion of Biomass . . . . . 61**  
Karine De Oliveira Vigier and François Jérôme

## **Part II Dissolution and Derivation of Cellulose and Fractionation of Lignocellulosic Materials with Ionic Liquids**

- 4 Design of Ionic Liquids for Cellulose Dissolution . . . . . 91**  
Toshiyuki Itoh
- 5 Ionic Liquids as Solvents for Homogeneous Derivatization  
of Cellulose: Challenges and Opportunities . . . . . 107**  
Thomas Heinze and Martin Gericke
- 6 Fractionation of Lignocellulosic Materials with Ionic Liquids . . . . 145**  
Timo Leskinen, Alistair W.T. King, and Dimitris S. Argyropoulos

## **Part III Production of Biofuels and Chemicals in Ionic Liquids**

- 7 Biofuel Production with Ionic Liquids . . . . . 171**  
Haibo Xie and Zongbao Kent Zhao

<b>8</b>	<b>Catalytic Transformation of Biomass in Ionic Liquids . . . . .</b>	<b>195</b>
	Blair J. Cox and John G. Ekerdt	
<b>9</b>	<b>Production of Versatile Platform Chemical 5-Hydroxymethylfurfural from Biomass in Ionic Liquids . . . . .</b>	<b>223</b>
	Xinhua Qi, Richard L. Smith Jr., and Zhen Fang	
<b>Part IV Compatibility of Ionic Liquids with Enzyme in Biomass Treatment</b>		
<b>10</b>	<b>Compatibility of Ionic Liquids with Enzymes . . . . .</b>	<b>257</b>
	Ngoc Lan Mai and Yoon-Mo Koo	
<b>11</b>	<b>Biocompatibility of Ionic Liquids with Enzymes for Biofuel Production . . . . .</b>	<b>275</b>
	Teresa de Diego, Arturo Manjón, and José Luis Iborra	
<b>Part V Ionic Liquids for Absorption and Biodegradation of Organic Pollutant in Multiphase Systems</b>		
<b>12</b>	<b>Absorption of Hydrophobic Volatile Organic Compounds in Ionic Liquids and Their Biodegradation in Multiphase Systems . . . . .</b>	<b>305</b>
	Solène Guihéneuf, Alfredo Santiago Rodriguez Castillo, Ludovic Paquin, Pierre-François Biard, Annabelle Couvert, and Abdeltif Amrane	
	<b>Editors' Biography . . . . .</b>	<b>339</b>
