

CONTENTS

Preface	ix
Acknowledgments	xi
Chapter 1	1
Biotechnology: The Science and Origin of Lipase	
Chapter 2	13
Isolation Strategies of Microbial Lipases	
Chapter 3	21
Lipase Production: Defining the Media	
Chapter 4	29
Lipase Purification and Characterization	
Chapter 5	51
Lipase Structure	
Chapter 6	61
Molecular Cloning and Overexpression	
Chapter 7	87
Bioinformatics	
Chapter 8	95
Lipases: Biocatalysts for the Future	
Section I	103
Experiments	
Section II	113
Appendix	
Section III	129
Abbreviations	
Section IV	135
References	
Index	139
