

CHAPTER ONE
HISTORY OF OCEANOGRAPHY

1

The Concept of Geography Develops 1

Early Ideas about the Land and Sea |
Contributions of the Romans | The Middle Ages |
Age of Discovery

The Search to Increase Scientific Knowledge of the
Oceans 7

Captain James Cook | Matthew Fontaine Maury |
Charles Darwin | The Rosses—Sounders of the
Deep | Edward Forbes | The *Challenger*
Expedition | Fridtjof Nansen

Twentieth-Century Oceanography 12

Voyage of the *Meteor* | Oceanography in the
United States

The *Seacam* Age Just Began 14

CHAPTER TWO
THE ORIGIN OF THE EARTH, ITS
OCEANS, AND LIFE IN THE
OCEANS

25

The Universe We See 25

Origin of the Earth 27

Origin of the Atmosphere and Oceans 28

The Atmosphere Forms | The Oceans Evolve

The Source 30

The Chemical Balance Sheet 30

Excess Volatiles

An Alternate Theory—Ocean Water from Space 31

Development of the Oceans and Their Basins 33

A Chemical Background 33

A Look at the Atom | Chemical Bonds

Life Forms in the Oceans 36

Ozone Formation | The First “Organic”
Substances | Carbon—the Organizer of Life |
Acidity and Alkalinity | Plants and Animals Evolve

Did Life Begin on the Ocean Floor? 39

CHAPTER THREE		
MARINE PROVINCES	47	
Isostasy	47	
Techniques of Determining Bathymetry	49	
Continental Margin	50	
Continental Shelf Continental Slope Continental Rise		
<i>SEAS 17</i> Mapping the Ocean Floor		
Deep-Ocean Basin	61	
Abyssal Plains Trenches Oceanic Ridges and Rises		
CHAPTER FOUR		
THE ORIGIN OF OCEAN BASINS: THEORY OF GLOBAL PLATE TECTONICS	67	
Development of the Theory	68	
Supporting Evidence	68	
Continental Jigsaw		
Continental Geology	69	
The Fossil Record Ancient Life and Climates Continental Magnetism		
Marine Geology	74	
Paleomagnetism Sea-Floor Spreading		
Plate Boundaries	79	
Constructive Boundaries Destructive Boundaries Shear Boundaries		
<i>Alvin</i> Explores Spreading-Center Median Valleys	81	
Growth of Ocean Basins	90	
Atlantic Ocean	93	
Pacific Ocean	93	
Seamounts and Tablemounts Coral Reef Development Pacific Ocean Hot Spots Fracture Zones Oceanic Trenches		
Ophiolites	94	
Indian Ocean	104	
Microcontinents Movement of the Indian Plate Australia Begins to Move		
CHAPTER FIVE		
MARINE SEDIMENTS	113	
Sediment Texture	113	
Sediment Transport	114	
Classification of Marine Sediment	115	
Lithogenous Sediment Biogenous Sediment Hydrogenous Sediment Cosmogenous Sediment		
<i>Flow</i> —A Microscopic View of Sediment		
Distribution of Sediments	123	
Sediments of the Continental Margin (Neritic Sediments)	123	
Turbidites Glacial Deposits Stromatolites Blake Plateau		
Sediments of the Deep Ocean Basin (Oceanic Sediments)	126	
Abyssal Clay Oozes Manganese Nodules		
<i>Volcanic</i> —A Deep Ocean Hot Spot		
Distribution of Oceanic Sediments	130	
Fecal Pellets Calcareous Ooze Abyssal Clay Siliceous Ooze		
The Impact of Deep-Sea Life		
CHAPTER SIX		
PROPERTIES OF WATER	145	
Properties of Water	145	
The Water Molecule Solvent Properties of Water Thermal Properties of Water Surface Tension Salinity of Ocean Water Water Density		
Hurricanes—Nature's Safety Valves	152	
Residence Time	159	
GEOSECS (Geochemical Ocean Sections)	159	
CHAPTER SEVEN		
AIR-SEA INTERACTION	165	
Physical Properties of Ocean Water	165	
Light Transmission Density Sound Transmission		
Solar Energy	169	
Distribution of Solar Energy Heat Balance of the Earth		
Coriolis Effect	171	
Heat Budget of the World Ocean	173	
Q_s —Heat Gain from Solar Radiation Heat Loss through Radiation (Q_r), Evaporation (Q_e), and Conduction (Q_h)		

- Oceans, Weather, and Climate 175
 Climate Patterns in the Oceans | Sea
 Ice | Icebergs | Renewable Sources of Energy

OCEAN CIRCULATION 191

- Horizontal Circulation 191
 Ekman Spiral | Geostrophic Currents | Westward
 Intensification
- Vertical Circulation 195
 Wind-Induced Circulation | Thermohaline
 Circulation
- Antarctic Circulation 202
 Surface Circulation
- Atlantic Ocean Circulation 205
 Surface Circulation | Deep-Water Masses
- Pacific Ocean Circulation 210
 Surface Circulation | Deep-Water Masses
- Indian Ocean Circulation 211
 Surface Circulation
- Deep-Water Masses 212
- Research in Ocean Circulation 214
- Power from Winds and Currents 214

CHAPTER NINE WAVES 221

- Wave Characteristics 222
 Deep-Water Waves | Shallow-Water Waves |
 Transitional Waves
- Wind-Generated Waves 225
 Sea Waves | Swell | Surf | Wave Refraction |
 Wave Diffraction | Wave Reflection | Storm
 Surge
- The Eastnet Disaster—Wave Interference Creates a
 Monster Sea 229
- Tsunami 238
- Internal Waves 241
- Power from the Waves 242

TIDES 247

- Tide-Generating Forces 247
 Law of Gravitation
- Equilibrium Theory of Tides 250
 The Rotating Earth | Combined Effects of Sun
 and Moon | Effects of Declination | Effects of
 Distance | Equilibrium Tide Prediction
- Dynamical Theory of Tides 260
 Types of Tides | Tides in Lakes | Tides in Narrow
 Open Basins | Tides in Broad Open Basins
- Tides Observed throughout the World 266
 Tides in a Narrow Basin | Tides in a Broad
 Basin | Tides in the Open Ocean | Tides in Rivers
- Tides as a Source of Power 270
 Another Look at the Earth-Moon System

CHAPTER TEN GEOLOGY OF THE COASTAL REGIONS 277

- General Description of the Coastal Region 277
 Erosional Shore Features | Depositional Shore
 Features
- Changing Levels of the Shoreline 281
 Tectonic Movements | Eustatic Movements
- The United States Coasts 283
 Atlantic-type (Passive) Margins | Pacific-type
 (Active) Margins | The Gulf Coast | The Atlantic
 Coast | The Pacific Coast | Effect of Constructed
 Barriers
- Can We Learn to Live with Our Changing
 Shores? 287

CHAPTER TWELVE THE COASTAL OCEAN AND MARGINAL SEAS 297

- Coastal Ocean 297
 Salinity | Temperature | Coast Geostrophic
 Currents
- Estuaries 299
 Origin of Estuaries | Water Mixing in Estuaries
- Wetlands 301

Barrier Islands 302

Lagoons 304

Laguna Madre

Marginal Seas 305

Marginal Seas of the Atlantic Ocean | Marginal Seas of the Pacific Ocean | Marginal Seas of the Indian Ocean

Tides and Ocean Circulation Events 307

Index of the Marine Environment 308

**CHAPTER THIRTEEN
THE MARINE ENVIRONMENT 325**

General Conditions 325

Support | Effects of Salinity | Availability of Nutrients | Availability of Solar Radiation | Margins of the Continents | Water Color and Life in the Oceans | Size | Viscosity | Temperature

Clay and Pumps on the Ocean Floor 326

Divisions of the Marine Environment 336

Pelagic Environment | Benthic Environment | Distribution of Life in the Oceans | Plankton | Nekton | Benthos

Soft Sulfur Kings and Marine Life 359

**CHAPTER FOURTEEN
BIOLOGICAL PRODUCTIVITY—
ENERGY TRANSFER 353**

Taxonomic Classification 353

Macroscopic Plants 355

Phaeophyta (Brown Algae) | Chlorophyta (Green Algae) | Rhodophyta (Red Algae) | Spermatophyta (Seed-Bearing Plants)

Microscopic Plants 358

Chrysophyta (Golden Algae) | Pyrrophyta (Dinoflagellate Algae)

Primary Productivity 359

Distribution of Productivity | Temperature Stratification and Nutrient Supply

Chemosynthetic Productivity 365

Energy Transfer 367

Marine Ecosystem | Energy Flow | Composition of Organic Matter | Biogeochemical Cycling

Antarctic Sea Star Larvae: Unusual Feeding Behavior 369

Trophic Levels and Biomass Pyramids 372

Trophic Levels | Transfer Efficiency | Biomass Pyramid

The Peruvian Anchovy Fishery 374

Physical Conditions | Biological Conditions | A Natural Hazard | A Man-Made Hazard

Vertical and Lateral Flow

The Open Ocean Environment

The Open Ocean Environment

LIFE IN THE OPEN OCEAN 385

Staying above the Ocean Floor 385

Gas Containers | Floating Forms | Swimming Forms | Modifications in Swimming Behavior

Marine Mammals 393

Cetaceans

Group Behavior 399

Schooling | Migration | Reproduction

Atlantic Humpback Whale: Female-Cool-Male 399

Salmon Ranching: A Pilot Project 404

**CHAPTER SIXTEEN
LIFE ON THE OCEAN FLOOR 413**

Rocky Shores 413

Supralittoral (Spray) Zone | High-Tide Zone | Middle-Tide Zone | Low-Tide Zone

Sediment-Covered Shore 420

The Sediment | Life in the Sediment | The Sandy Beach | The Mud Flat

The Shallow Offshore Ocean Floor 426

The Rocky Bottom (Sublittoral) | Coral Reefs | Sediment-Covered Bottom

Deep-Ocean Floor 431

The Physical Environment | The Deep Fauna

Life on the Deep Ocean Floor 437

Additional Submarine Vent Communities 439

**CHAPTER SEVENTEEN
HUMANS INTERACT WITH THE
OCEAN 445**Subsea Disposal of High-Level Nuclear Waste 446
Law of the Sea 450

CONTENTS

Fisheries	451
Mariculture	454
Algae Bivalves Crustaceans Fishes What Lies Ahead	
Petroleum	458
Other Minerals	459
Marine Pollution	460
Ocean Dumping in New York Bight Minamata Disease Persistent Compounds Oil Pollution	
Ocean Research	468
Freedom for Research Remote Sensing	

APPENDIXES

I	Scientific Notation	475
II	The Metric System and Conversion Factors	476
III	Periodic Table of the Elements	477
IV	The Geologic Time Table	478

V	Taxonomic Classification of Common Marine Organisms	479
VI	Calculations Relative to Source of Ocean Water	482
VII	Roots, Prefixes, and Suffixes	483
