

Contents

Preface.....ix
Editor.....xi
Contributors.....xiii

Section I Cells

1. Endothelial Progenitor Cells: Current Status.....3
Matthew R. Richardson and Mervin C. Yoder
2. Role of Pericytes in Tissue Engineering..... 17
Holly M. Lauridsen and Anjelica L. Gonzalez
3. Mesenchymal Support Cells in the Assembly of Functional Vessel Networks..... 37
Rahul K. Singh, Marina Vigen, and Andrew J. Putnam
4. Adipose Stromal Vascular Fraction Cells for Vascularization
of Engineered Tissues..... 59
Stuart K. Williams and James B. Hoying

Section II Biomaterials

5. Vascular Development and Morphogenesis in Biomaterials.....85
Sebastian F. Barreto-Ortiz, Quinton Smith, and Sharon Gerecht
6. Biophysical Mechanisms That Govern the Vascularization of Microfluidic
Scaffolds..... 109
Keith H. K. Wong, James G. Truslow, Aimal H. Khankhel, and Joe Tien
7. Engineered *In Vitro* Systems of the Microcirculation..... 125
Monica L. Moya, Christopher C. W. Hughes, and Steven C. George
8. Microfabrication of Three-Dimensional Vascular Structures..... 143
*Xin Zhao, Šeila Selimović, Gulden Camci-Unal, Mehmet R. Dokmeci, Lara Yildirimer,
Nasim Annabi, and Ali Khademhosseini*
9. Gradient Scaffolds for Vascularized Tissue Formation 163
Michael V. Turturro and Georgia Papavasiliou

Section III Models

10. **Modeling Vascularization in Tissue Engineering Scaffolds** 193
Hamidreza Mehdizadeh, Eric Michael Brey, and Ali Cinar

11. **Multiscale Modeling of Angiogenesis**..... 213
David Noren, Rahul Rekhi, Byron Long, and Amina Ann Qutub

Section IV Imaging

12. **In Vivo Imaging Methods for the Assessment of Angiogenesis: Clinical and Experimental Applications**..... 235
Laura Nebuloni, Gisela A. Kuhn, and Ralph Müller

Section V Vascularized Tissues

13. **In Vivo Techniques and Strategies for Enhanced Vascularization of Engineered Bone** 263
Bao-Ngoc B. Nguyen and John P. Fisher

14. **Vascularization of Encapsulated Cells**..... 283
Shruti Balaji, John Patrick McQuilling, Omaditya Khanna, Eric Michael Brey, and Emmanuel C. Opara

15. **Vascularization of Muscle** 301
Tracy Criswell, Zhan Wang, Yu Zhou, and Shay Soker

16. **Vascularization in Engineered Adipose Tissue** 325
Marcella K. Vaicik, Ronald N. Cohen, and Eric Michael Brey

17. **In Vivo Vascularization for Large-Volume Soft Tissue Engineering** 343
Geraldine M. Mitchell and Wayne A. Morrison

Index 363
