|---|-------|
| Series Preface | ix |
| Foreword: Britton Chance—Appreciation | xi |
| Preface..... | xvii |
| Editors..... | xix |
| Contributors..... | xxi |
| Abbreviations..... | xxiii |

SECTION I Biochemical, Biological, and Biophysical Background

| | |
|---|----|
| 1 Mitochondria and Energy Metabolism: Networks, Mechanisms, and Control..... | 3 |
| <i>Ilmo E. Hassinen</i> | |
| 2 Intracellular Autofluorescent Species: Structure, Spectroscopy, and Photophysics..... | 41 |
| <i>Nobuhiro Ohta and Takakazu Nakabayashi</i> | |

SECTION II Autofluorescence Imaging Techniques: Fundamentals and Applications

| | |
|---|-----|
| 3 One-Photon Autofluorescence Microscopy | 67 |
| <i>Narasimhan Rajaram and Nirmala Ramanujam</i> | |
| 4 Autofluorescence Lifetime Imaging..... | 77 |
| <i>Michael G. Nichols, Kristina Ward, Lyandysha V. Zholudeva, Heather Jensen Smith, and Richard Hallworth</i> | |
| 5 Polarization Imaging of Cellular Autofluorescence | 107 |
| <i>Harshad D. Vishwasrao, Qianru Yu, Kuravi Hewawasam, and Ahmed A. Heikal</i> | |
| 6 Real-Time In Vivo Monitoring of Cellular Energy Metabolism | 137 |
| <i>Avraham Mayevsky and Efrat Barbiro-Michaely</i> | |

| | | |
|---|---|-----|
| 7 | Tryptophan as an Alternative Biomarker for Cellular Energy Metabolism | 157 |
| | <i>Vinod Jyothikumar, Yuansheng Sun, and Ammasi Periasamy</i> | |
| 8 | Alternative Approaches to Optical Sensing of the Redox State..... | 179 |
| | <i>Yi Yang</i> | |

SECTION III Natural Biomarkers for Biochemical and Biological Studies

| | | |
|----|--|-----|
| 9 | Spatiotemporal Detection of NADH-Linked Enzyme Activities in Single Cell Metabolism..... | 201 |
| | <i>V. Krishnan Ramanujan</i> | |
| 10 | NAD(P)H and FAD as Biomarkers for Programmed Cell Death..... | 215 |
| | <i>Hsing-Wen Wang</i> | |
| 11 | Monitoring Stem Cell Differentiation in Engineered Tissues | 225 |
| | <i>Kyle P. Quinn and Irene Georgakoudi</i> | |

SECTION IV Autofluorescence as a Diagnostic Tool in Medicine and Health

| | | |
|--------------|--|-----|
| 12 | Autofluorescence-Assisted Examination of Cardiovascular System Physiology and Pathology..... | 245 |
| | <i>Alzbeta Marcek Chorvatova</i> | |
| 13 | Autofluorescence Perspective of Cancer Diagnostics | 273 |
| | <i>Lin Z. Li and Nannan Sun</i> | |
| 14 | Dynamic Imaging of Intracellular Coenzyme Autofluorescence in Intact Pancreatic Islets..... | 299 |
| | <i>Alan K. Lam and Jonathan V. Rocheleau</i> | |
| 15 | Autofluorescence Diagnostics of Ophthalmic Diseases | 317 |
| | <i>Dietrich Schweitzer</i> | |
| 16 | Pathogen Effects on Energy Metabolism in Host Cells | 347 |
| | <i>Márta Szaszák and Jan Rupp</i> | |
| Index | | 373 |
