
Contents

1	Introduction.....	1
1.1	General.....	1
1.2	Agricultural Development and Global Food Security	1
1.3	Underutilised Crop.....	3
2	Pseudocereals: An Efficient Food Supplement.....	5
2.1	General.....	5
2.2	Floristic Composition of India.....	5
2.3	Pseudocereals: An Alternative Food Resource	6
2.4	Nutritive Value of Pseudocereals	7
3	Amaranths: The Crop of Great Prospect	13
3.1	General.....	13
3.2	Grain Amaranths: A Nutritive Supplement to Major Cereals	14
3.3	Different Species of Grain Amaranths.....	15
3.3.1	<i>Amaranthus hypochondriacus</i> L.	18
3.3.2	<i>Amaranthus cruentus</i> L.	20
3.3.3	<i>Amaranthus caudatus</i> L.	21
3.4	Potentiality of Grain Amaranth as Food	23
3.5	Vegetable Amaranths	25
3.6	Species of Vegetable Amaranths	27
3.6.1	<i>Amaranthus tricolor</i> L.....	27
3.6.2	<i>Amaranthus blitum</i> L.....	29
3.6.3	<i>Amaranthus dubius</i> L.	30
3.6.4	<i>Amaranthus cruentus</i> L.	30
3.6.5	<i>Amaranthus viridis</i> L.....	32
3.6.6	<i>Amaranthus graecizans</i> L.....	33
3.7	Nutritive Value of Vegetable Amaranths	34
3.8	Uses of Amaranths	35
3.8.1	Uses of Vegetable Amaranths	35
3.8.2	Uses of Grain Amaranths	36
3.9	Culinary Properties of Amaranths	39
3.10	Bioactive Components and Medicinal Properties.....	39
3.11	Weed Amaranths	42

4	Infrageneric Classification of Amaranths.....	49
4.1	General.....	49
4.2	Synopsis of Infrageneric Classifications of Amaranths.....	49
4.2.1	<i>Amaranthus</i> Subgen. <i>Acnida</i> Aellen ex K.R. Robertson.....	50
4.2.2	<i>Amaranthus</i> Subgen. <i>Amaranthus</i>	50
4.2.3	<i>Amaranthus</i> Subgen. <i>Albersia</i> Grenier & Godron.....	51
4.3	Infrageneric Classification After the Modification by Mosyakin and Robertson (1996).....	51
4.3.1	<i>Amaranthus</i> Subgen. <i>Acnida</i> (L.) Aellen ex K.R. Robertson.....	52
4.3.2	<i>Amaranthus</i> Subgen. <i>Amaranthus</i>	53
4.3.3	<i>Amaranthus</i> Subgen. <i>Albersia</i>	54
4.4	Provisional Key to Some Edible Species of <i>Amaranthus</i>	55
5	Taxonomy and Phylogeny of Grain Amaranths.....	57
5.1	General.....	57
5.2	Morphological Approach in Solving Taxonomic Disputes.....	58
5.3	Biochemical and Molecular Approach in Understanding Systematics and Taxonomy.....	65
5.4	Cytogenetical Approach in Understanding Species Relationship.....	75
5.5	Taxonomic Delimitation in Vegetable Amaranths.....	80
5.6	Key to the Varieties of <i>Amaranthus tricolor</i> L.....	80
5.7	Taxonomic Delimitation in Weed Amaranths.....	88
5.8	Different Phylogenetic Concepts on Grain Amaranths.....	88
6	Weed and Herbicide Resistance.....	95
6.1	General.....	95
6.2	Resistance to Different Types of Herbicides.....	95
6.2.1	Resistance to Photosystem II Inhibitors.....	96
6.2.2	Resistance to Acetolactate Synthase (ALS) Inhibitors.....	96
6.2.3	Resistance to Protoporphyrinogen Oxidase (PPO) Inhibitors.....	96
7	Distribution and Maintenance of Amaranth Germplasm Worldwide.....	99
7.1	General.....	99
7.2	Germplasm Collection Centres in the World.....	99
7.3	Genome Resource Development of <i>Amaranthus</i>	104
8	Breeding of Amaranths.....	107
8.1	General.....	107
8.2	Breeding Behaviour in Amaranths.....	108
8.3	Objectives in Amaranth Breeding.....	112

8.4	Conventional Breeding by Selection	116
8.5	Hybridisation and Heterosis in Amaranths	118
8.6	Male Sterility in Amaranth Breeding.....	125
8.7	Wild Gene Pool, Landraces and Heritability	126
8.8	Mutation Breeding.....	132
8.9	Polyploidy in Amaranth Breeding	136
8.10	Genetic Engineering and Biotechnological Approach in Genetic Improvement.....	137
8.11	Genetic Transformation in Breeding Amaranths	138
8.12	Molecular Markers and Genome Research for Using Genetic Resources in Plant Breeding	142
8.13	Molecular Breeding in Amaranths.....	143
8.14	Plant Tissue Culture Techniques in Amaranth Breeding	144
9	Evolution of Sexuality in Amaranths	147
9.1	General.....	147
9.2	Trend of Sexuality in Plants.....	147
9.3	Sexuality in Amaranths.....	149
10	Cultivation of Amaranths	153
10.1	General.....	153
10.2	Seed Dormancy and Seed Viability of <i>Amaranthus</i>	154
10.3	Agroclimatic Condition for Cultivation of Amaranths	159
10.3.1	Climate	159
10.3.2	Soil	160
10.3.3	Temperature.....	160
10.3.4	Rainfall	161
10.3.5	Day Length.....	161
10.4	Cultivation Practices	161
10.4.1	Sowing of Seeds	161
10.4.2	Seedling Growth and Interculture	162
10.4.3	Manuring	163
10.4.4	Obstacles in Productivity in Grain Amaranths	163
10.4.5	Harvesting	164
10.4.6	Pests and Diseases	165
11	Future Prospects in Amaranth Research.....	167
	Appendices.....	173
	Appendix I.....	173
	Appendix II	174
	References.....	189
