
Contents

Preface.....	ix
Chapter 1 Introduction to Anticancer Drug Development.....	1
1.1 Cancer.....	1
1.2 Chemotherapy.....	1
1.3 Need for Effective Anticancer Drugs.....	2
1.4 Stages of Anticancer Drug Development.....	2
References.....	5
Chapter 2 <i>In Vitro</i> Biological Assays for Anticancer Chemotherapeutics.....	7
2.1 Introduction.....	7
2.2 Advantages of <i>In Vitro</i> Assays.....	7
2.3 Disadvantages of <i>In Vitro</i> Assays.....	8
2.4 Classification of <i>In Vitro</i> Assays.....	8
2.5 Essential Techniques of Cell Cultures.....	9
2.5.1 Primary Cell Cultures.....	9
2.5.2 Maintenance of Cell Lines.....	9
2.5.3 Subculture of Cells.....	9
References.....	9
Chapter 3 Cell Viability and Cytotoxicity Assays.....	11
3.1 Introduction.....	11
3.2 Cell Membrane Integrity Assays.....	11
3.2.1 Dye Exclusion Assays.....	12
3.2.1.1 Trypan Blue Assay.....	12
3.2.1.2 Calcein Acetoxymethyl (Calcein-AM) Assay.....	14
3.2.1.3 Propidium Iodide (PI)/7- Aminoactinomycin D (7-AAD) Staining Assay.....	15
3.2.2 LDH Release Assays.....	16
3.3 Functional or Metabolic Assays.....	18
3.3.1 Tetrazolium Reduction Assays.....	18
3.3.1.1 MTT Assay.....	19
3.3.1.2 MTS Assay.....	21
3.3.1.3 XTT Assay.....	22
3.3.1.4 WST Assay.....	23
3.3.2 Sulforhodamine B Assay.....	24
3.3.3 Acid Phosphatase Assay.....	25

3.3.4	Alamar Blue Oxidation-Reduction Assay	27
3.3.5	Neutral Red Assay	28
3.3.6	Protease Viability Marker Assay	29
3.4	Cell Adhesion Assay	30
	References	31

Chapter 4 Cell Proliferation Assays..... 33

4.1	Introduction	33
4.2	DNA Labeling Assays	33
4.2.1	[³ H]-Thymidine Assay	34
4.2.2	BrdU Incorporation Assay	35
4.3	Metabolic Assays	37
4.3.1	Dye Assays	37
4.3.2	ATP Assays	37
4.4	Clonogenic Reproductive Assay	38
	References	40

Chapter 5 Apoptosis Assays..... 41

5.1	Introduction	41
5.2	Light Microscopy	43
5.3	Western Blot Caspase Activation Assay	43
5.4	Annexin-V Staining	45
5.5	DNA Ladder Assay	46
5.6	ELISA	48
5.7	TUNEL Assay	49
5.8	Comet Assay	51
5.9	Acridine Orange/Ethidium Bromide Staining	53
5.10	Mitochondrial Membrane Potential Assay	54
5.11	Chromatin Condensation Assay	55
5.12	APOPercentage™ Apoptotic Assay	56
5.13	PARP Cleavage Assay	57
5.14	Flow Cytometry	57
	References	58

Chapter 6 Cell Migratory Assays..... 61

6.1	Introduction	61
6.2	2D Cell Migration Assays	62
6.2.1	Wound Healing Assay	62
6.2.2	Cell Exclusion Zone Assay	64
6.2.3	Transwell Migration Assay	65
6.2.4	Fence Assay	66
6.2.5	Microfluidic Assay	67
6.2.6	Single Cell Motility Assay	69

6.3	2D/3D Migration Assays	70
6.3.1	Microcarrier Bead Assay	70
6.3.2	Spheroid Migration Assay	71
6.3.2.1	3D-Spheroid Formation Protocol	71
	References	73
Chapter 7	<i>In Vitro</i> Cell Invasion Assays	75
7.1	Introduction	75
7.2	Transwell Invasion Assay	75
7.3	Platypus Invasion Assay	77
7.4	Gelatin Degradation Assay	78
7.5	3D Cell Tracking Assay	80
7.6	Vertical Gel 3D Invasion Assay	81
7.7	Spheroid/Monodispersed Cell Invasion Assay	82
7.8	Spheroid Confrontation Assay	84
7.9	Spheroid Gel Invasion Assays	85
	References	87
Chapter 8	Anti-Angiogenesis Assays	89
8.1	Introduction	89
8.2	Endothelial Tube Formation Assay	91
8.3	Rat Aortic Ring Assay	92
	References	94
Chapter 9	High-Throughput Screening Assays	97
9.1	Introduction	97
9.2	Cell Culture	97
9.3	High-Throughput Cytotoxicity and Apoptosis Screening in 2D Cultures	98
9.4	3D Cell-Based HTS Assays	99
	References	99
	Index	101
