<b>Preface</b>	<b>vii</b>
<b>Part I. Counter-regulatory Role of Cytokines</b>	<b>1</b>
<b>Chapter I</b> Interleukin-12: Effector Mechanisms and Homeostatic Counter-regulation <i>Nejat K. Egilmez</i>	<b>3</b>
<b>Part II. Role of Cytokines in the Nervous System and Neurological Diseases</b>	<b>23</b>
<b>Chapter II</b> Cytokines: Sensors of the Nervous System <i>Mary Fafutis-Morris and Oscar Kurt Bitzer Q.</i>	<b>25</b>
<b>Chapter III</b> Role of Cytokines in Hypoxic Periventricular White Matter Damage in Developing Brain <i>Madhuvika Murugan, Eng-Ang Ling and Charanjit Kaur</i>	<b>51</b>
<b>Chapter IV</b> Cytokine Network as Attractive Therapeutic Target for Neurodegenerative Diseases <i>Marcella Reale</i>	<b>85</b>
<b>Part III. Dysregulation or Modulation of Cytokines during Trauma and Injury</b>	<b>99</b>
<b>Chapter V</b> Cytokine Dysregulation and its Epigenetic Control in Post-traumatic Stress Disorder <i>Juhua Zhou, Yin Zhong, Prakash Nagarkatti and Mitzi Nagarkatti</i>	<b>101</b>
<b>Chapter VI</b> Cytokines, Properties and Role during Wound Healing and Response to Photomodulation <i>P. R. Sekhejane and H. Abrahamse</i>	<b>117</b>
<b>Chapter VII</b> Inflammatory Cytokines and Heart Disease: Their Implication in Paracrine Effects of Mesenchymal Stem Cell Therapy <i>Alice Le Huu, Guangyong Chen and Dominique Shum-Tim</i>	<b>139</b>

---

<b>Chapter VIII</b>	The Role of Proinflammatory Cytokines in Osteoarthritis: New Therapeutic Approaches Using Anti-cytokine Therapy and NF- $\kappa$ B Inhibitors	<b>147</b>
	<i>Ali Mobasheri and Mehdi Shakibaei</i>	
<b>Part IV. The Role of Cytokines in Cancer and Periodontal Disease</b>		<b>171</b>
<b>Chapter IX</b>	Scavenger Receptor A (SRA/CD204): A Multifaceted Regulator of Inflammatory Response and Immunity	<b>173</b>
	<i>Xiaofei Yu, Daming Zuo, John R. Subjeck and Xiang-Yang Wang</i>	
<b>Chapter X</b>	Pro-inflammatory Cytokines and Human Prostate Cancer	<b>197</b>
	<i>Gonzalo Rodriguez-Berriguete, Benito Fraile, Ricardo Paniagua and Mar Royuela</i>	
<b>Chapter XI</b>	Vascular Endothelial Growth Factor and its Receptors in Multiple Myeloma	<b>215</b>
	<i>Roberto Ria, Antonia Reale and Angelo Vacca</i>	
<b>Chapter XII</b>	The Roles of Cytokines in Periodontal Disease	<b>235</b>
	<i>Hiromichi Yumoto, Kouji Hirao, Takashi Matsuo and Yoichiro Miyake</i>	
<b>Index</b>		<b>255</b>
